[the rest of this post is reserved for updates]

Kappah - October 22, 2011, 8:11 pm

Vouch for this product.

Super legit.

Glad C4N found someone to replace me, good luck man!

EDIT: I sold my YT account so that vid isn't there anymore, sorry.

Xenon - October 22, 2011, 8:45 pm

Like C4N said, I'm now the official reseller of Paradox RAT and I will be managing sales and support. Feel free to post if you have any questions/comments/concerns.

DvS - October 22, 2011, 8:50 pm

I'm very interested, I would like for someone to give a full review before I buy it though, this product

looks promising.

SIM-888979 - October 22, 2011, 8:50 pm

Holy Shit. More great features from C4N. If only it wasn't coded with C# and VB.NET. I wish the ParadoxCoding team all the best with this.

Xenon - October 22, 2011, 9:12 pm

Tomorrow I will hopefully have a video that shows some of the features of this RAT.

Coding4Noobs - October 22, 2011, 9:59 pm

alright cool, umm my vouch post ill use to post new information...

Kappah - October 22, 2011, 10:00 pm

New thread? Why?

What ever, Vouch for this guy, very legit, nice RAT.

-Exiled- - October 22, 2011, 10:04 pm

Question how are any of these features:

Bug report? What why would you list that as a feature.. No hating Im just curious Ive seen weird features added in a lot recently and same for hide/show ip address's...

Xenon - October 22, 2011, 10:11 pm

(Oct 22, 2011 10:04 PM)-Cybertron- Wrote: [\[CITE\]](#) Question how are any of these features:

The bug report feature is a tool inside of the program that allows you to easily report bugs to the developer.

Coding4Noobs - October 23, 2011, 7:53 am

(Oct 22, 2011 10:11 PM)Xenon Wrote: [\[CITE\]](#) The bug report feature is a tool inside of the program that allows you to easily report bugs to the developer.

I consider it a feature because its giving all of our customers the ability to communicate with the coder and allowing the to express what they think needs to be fixed if anything, so far i have only ever received 1 bug report and it was fixed...

CRT - October 23, 2011, 8:24 am

(Oct 22, 2011 08:10 PM)Coding4Noobs Wrote: [\[CITE\]](#) New Featurs:

Rust Kill

Rust kill? don't you mean ruskill ?

And what bots does the ruskill feature work with?

Imaginary - October 23, 2011, 8:26 am

What about detection rate?

is it FUD?

Jittery - October 23, 2011, 8:29 am

Going to have to check out this RAT. ?

SkyRider - October 23, 2011, 8:55 am

this rat is far to cheap for what you get fast updates bugs fixed instantly best rat i used never lost a single bot and botkiller works just fine keep up good work bro?

Xenon - October 23, 2011, 9:12 am

(Oct 23, 2011 08:26 AM)ddd66611 Wrote: [\[CITE\]](#) What about detection rate?

is it FUD?

After you use the built in crypter, the bin is only detected by Avira.

#GOD - October 23, 2011, 9:33 am

Vouch for my friend Xenon, great guy, awesome coder. GLWS

Coding4Noobs - October 23, 2011, 10:29 am

well guys good new for remote desktop again, i know i speed it up a little in the last update but its stil kidna slow...

today i went back to udp socks and i had it streaming fast as hell, but i got BSOD from a memory leak and lost the code, so basically today ill be recoding what i had 10 min ago, and today update should increase the speed of remote desktop by like 10 times as fast as it is now...

Xenon - October 23, 2011, 10:37 am

(Oct 23, 2011 10:29 AM)Coding4Noobs Wrote: [\[CITE\]](#) well guys good new for remote desktop again, i know i speed it up a little in the last update but its stil kidna slow...

Coding4Noobs - October 23, 2011, 12:24 pm

i almost have it working guy thanks to xSilent :)

Preeminent - October 23, 2011, 12:53 pm

This looks promising. I'll most likely be trying out this RAT. ?

Coding4Noobs - October 23, 2011, 1:29 pm

alright so i keep getting BSODS from new remote desktop that im working on for paradox, but no

worries ill fix it :)

Pingz - October 23, 2011, 1:33 pm

Vouch for this RAT.

It is very good RAT indeed :)

S?N - October 23, 2011, 4:59 pm

Vouch for C4N! Awesome RAT. A lot of features and updated frequently!

SUP3RM4N - October 23, 2011, 5:26 pm

Vouch for Paradox RAT, it has a lot of feature at a really nice price.

Coding4Noobs - October 23, 2011, 5:33 pm

thanks for vouches guys new remote desktop is like %75 complete jsut few bugs i gota fix...
2.6.5 update was released with UDP sock options

HakkuR - October 23, 2011, 7:27 pm

My buddy is the coder and im his bestie so he gets a vouch.

Xenon - October 23, 2011, 7:56 pm

The update was released with the .NET Framework fix along with the use of UDP sockets for remote desktop viewing.

Coding4Noobs - October 24, 2011, 8:51 am

in the update, i didnt remve the crypter completel, it now auto crypts / packs yours servers...

SkyRider - October 24, 2011, 1:27 pm

nice update keep it up guys gets better and better ??

Xenon - October 24, 2011, 2:05 pm

(Oct 24, 2011 01:27 PM)badhackz8t Wrote: [\[CITE\]](#) nice update keep it up guys gets better and better ??

Thanks. I'm here and ready to sell right now if anyone is interested in buying. I can activate your license right after you pay.

Coding4Noobs - October 24, 2011, 3:49 pm

i got another update tonight guys, i also added a mini basic bot shop, it will improve later when i complete the new serial system

...[Paradox Remote Administration Tool 2.7.2]:..
;25/10/11 12:09 PM

In todays update, I added a few new things...

- Windows Features
- Enable / Disable CMD
- Enable / Disable Regedit
- Enable / Disable Task Manager
- Bot Shop - Advertise you bot shop through Paradox

I also started cleaning up and fixing the UDP Remote Desktop Sockets, when I get them perfect Ill add audio and webcam

xSilent - October 24, 2011, 9:35 pm

I vouch for this RAT. Good coder and friend.

Xenon - October 25, 2011, 12:48 pm

(Oct 24, 2011 09:35 PM)xSilent Wrote: [\[CITE\]](#) I vouch for this RAT. Good coder and friend.
Thanks for the vouch. I'm still here and able to sell!

Thanks for your recent purchase. I'll be here for a while if anyone wants to buy.

Coding4Noobs - October 25, 2011, 8:10 pm

thanks for more vouches update is coming out in about a hour :P fixed the TCP Remote Desktop a

bit, its sending faster, and i changed the auto settings for UDP, but its still unstable unfortunately, i will hopefully be able to fix it over the weekend as long as im not too busy with halloween jams >.<

Confirm - October 25, 2011, 8:54 pm

I Have purchased this RAT and when I open it says that an update was released and the program will close to protect me. Anti-tampering. Please help or send me a new DL link.

Coding4Noobs - October 25, 2011, 8:55 pm

that would mean you missed 2 or more updates since the last time you used Paradox RAT.... i sent you a link remember it never changes

Xenon - October 26, 2011, 3:53 am

I'll be on at various times throughout the morning for anyone who is interested in purchasing via AlertPay or Liberty Reserve.

Coding4Noobs - October 26, 2011, 8:02 am

alright guys thanks for using bug report system ill be sure to fix what you reported where the chrome stealer would crash on computers that dont have chrome

Karmadhi - October 26, 2011, 10:20 am

Im still having the problem that i had before , the RAT works on my computer , but doesn't on others..

xenon said its a compiler error or some shit that requires .net framework 4 for it to work..

I thought it was fixed ../

Xenon - October 26, 2011, 11:07 am

(Oct 26, 2011 10:20 AM)Karmadhi Wrote: [\[CITE\]](#) Im still having the problem that i had before , the RAT works on my computer , but doesn't on others..

xenon said its a compiler error or some shit that requires .net framework 4 for it to work..

I thought it was fixed ../

Did you download the new update? I know that issue was fixed in the newest version.

Coding4Noobs - October 26, 2011, 1:07 pm

it was fixed in the update tht i releaased la night

Karmadhi - October 26, 2011, 1:19 pm

(Oct 26, 2011 01:07 PM)Coding4Noobs Wrote: [\[CITE\]](#) it was fixed in the update tht i releaased la night

No , it still doesn't work for me ../ Can i have a refund , even Xenon tried to fix it but it didn't work..

Coding4Noobs - October 26, 2011, 1:24 pm

we have a no refund policy sorry, and hmm thats weird check the update today for it, cause im removing the packer again

Karmadhi - October 26, 2011, 1:27 pm

(Oct 26, 2011 01:24 PM)Coding4Noobs Wrote: [\[CITE\]](#) we have a no refund policy sorry, and hmm thats weird check the update today for it, cause im removing the packer again

So i just fucking paid for a program that i can only RAT myself? Wow nice.

Coding4Noobs - October 26, 2011, 1:34 pm

well your the only customer thats having that issues so you obviously doing something wrong yourself

Karmadhi - October 26, 2011, 1:42 pm

(Oct 26, 2011 01:34 PM)Coding4Noobs Wrote: [\[CITE\]](#) well your the only customer thats having that issues so you obviously doing something wrong yourself
No , i know 2 more people that have the same issue..

Coding4Noobs - October 26, 2011, 1:46 pm

it is something you are personally doing, cause im just built a server, and it came out requiring .net framework 2.0 when i ran it on my vps... so, it is something you are doing....

Karmadhi - October 26, 2011, 1:58 pm

(Oct 26, 2011 01:46 PM)Coding4Noobs Wrote: [\[CITE\]](#) it is something you are personally doing, cause im just built a server, and it came out requiring .net framework 2.0 when i ran it on my vps... so, it is something you are doing....

I don't know if .net framework is the problem , but xenon ran it on his vps and it worked , i tried to Watch his screen , it didn't work. I tried to get keylogs , didnt work , i tried other stuff , none worked..

my ports and everything are OK , i don't know what the hell is wrong , i bought 15 installs and none of them even connected..

Coding4Noobs - October 26, 2011, 2:20 pm

well the installs not connecting could be because its not FUD + it requires .net framework soo... and the functions not working are all to do with your internet connection :P

Xenon - October 26, 2011, 4:13 pm

(Oct 26, 2011 01:58 PM)Karmadhi Wrote: [\[CITE\]](#) I don't know if .net framework is the problem , but xenon ran it on his vps and it worked , i tried to Watch his screen , it didn't work. I tried to get keylogs , didnt work , i tried other stuff , none worked..

I know its been able to hold at least 400 at a time.

Coding4Noobs - October 27, 2011, 11:04 am

i think BadHackz said he had 2k on it idk ask him :)

Xenon - October 27, 2011, 11:20 am

(Oct 27, 2011 11:04 AM)Coding4Noobs Wrote: [\[CITE\]](#) i think BadHackz said he had 2k on it idk ask him :)

I'm sure it could hold as well. .NET sockets have been proven to be more stable than VB6 and Java sockets.

Coding4Noobs - October 27, 2011, 11:25 am

:P i just made a 3rd Remote Desktop option, basically its kinda a mix of the UDP and TCP, it uses a TCP Connection, the same one the rest of the RAT is on, but, its sending smaller packets, and

therefore it is receiving the images a lot faster :P

Karmadhi - October 27, 2011, 2:36 pm

Why the fuck it isnt working for me :(Its a simple and nice RAT , but idk whats the problem :(And no one trys to help =/

BlackHops - October 27, 2011, 2:49 pm

It seems like a very nice RAT with the exception of the .NET dependency

Xenon - October 27, 2011, 2:55 pm

(Oct 27, 2011 02:49 PM)?BlackHops Wrote: [\[CITE\]](#) It seems like a very nice RAT with the exception of the .NET dependency

That's always a concern from people, but the way I look at it is that it's the future. Windows 8 will support it, which makes Vista, 7, and 8 compatible with this RAT.

MiserAble - October 27, 2011, 3:31 pm

add those 2 and i will buy fore sure
database feature & thumbnails webcam/desktop
and also thumbnails for picture on file managers like PI OR bif
and with high quilty pw stealer
and dose this support Unicode ?

Xenon - October 27, 2011, 3:34 pm

(Oct 27, 2011 03:31 PM)MiserAble Wrote: [\[CITE\]](#) add those 2 and i will buy fore sure

no our thumbnail is located to the right with basic information about your client

right beside the ipaddress we have a flag column, yeah, i know i was wondering to add thumbnail for every bots, like PI (PI only have thumbnail desktop)

if u wanna my advice, don't add useless things, just the basic and needed things

and if u can add database feature pw's would be great

and nice rat btw, and read this

Xenon - October 27, 2011, 3:42 pm

(Oct 27, 2011 03:39 PM)MiserAble Wrote: [\[CITE\]](#) if u wanna my advice, don't add useless things, just the basic and needed things

and nice rat btw, look above :D

Right now it seems only the essentials are included. Hopefully some more and stronger features will be added soon, but I don't think too many pointless things will ever be added.

MiserAble - October 27, 2011, 4:11 pm

i know i have been bugging u guys about adding new things :D

but i just forgot to say that socks4 proxy reserve one (no open ports needed) would be great :D

thanx

Xenon - October 27, 2011, 4:15 pm

(Oct 27, 2011 04:11 PM)MiserAble Wrote: [\[CITE\]](#) i know i have been bugging u guys about adding new things :D

but i just forgot to say that socks4 proxy reserve one (no open ports needed) would be great :D

thanx

I'll tell C4N about that. Using the user as a HTTP proxy would be a cool feature.

Coding4Noobs - October 27, 2011, 5:01 pm

i would have to do some research for that, right now im just working with webcam again, after that im updating file manager

Xenon - October 27, 2011, 5:27 pm

I may be offline tomorrow morning due to an appointment, so I won't be able to make any sales. I'll still be online tonight and tomorrow afternoon.

Coding4Noobs - October 27, 2011, 5:40 pm

2.8.1 update released, added chat, error logger, and remote desktop mixed

Xenon - October 27, 2011, 6:38 pm

As he said, the new update is out, and I'm here and ready to sell it.

Coding4Noobs - October 27, 2011, 7:20 pm

i also enabled the Bot Killer Feature for the sever so you can clean your computer...

Xenon - October 28, 2011, 5:25 am

I'll be gone for the morning, but you can use the autobuy feature with paypal, and soon hopefully autobuy with alertpay.

Coding4Noobs - October 28, 2011, 5:10 pm

yeah, sorry guys about that i gotta right ipn for alertpay ill get that done this weekend
New login system will also be done soon, so ill have to buy a vps :P

Karmadhi - October 29, 2011, 9:13 am

Wow my problem got fixed now , it works on other computers , FINALLY <3

Xenon - October 29, 2011, 9:40 am

(Oct 29, 2011 09:13 AM)Karmadhi Wrote: [\[CITE\]](#) Wow my problem got fixed now , it works on other computers , FINALLY <3

I'm glad for you. Anyways, it's the weekend, so I'll be online all day to take sales.

Coding4Noobs - October 29, 2011, 12:51 pm

and new login system is basically done, i just gotta make it work with auto buy now :P then next update will have it and what that means is on the website pretty soon, youll be able to manage your account, whether is be reset you hwid, change you password , login and check private messages etc :P

Xenon - October 29, 2011, 1:35 pm

You can still buy right now with the current licensing system.

Coding4Noobs - October 29, 2011, 1:40 pm

for people that are on the old license system, you account is still guna work, just you will be required to register

Xenon - October 29, 2011, 6:19 pm

The new licensing system will allow you to manage your account right from the website. Then you can change computers when you need to.

Coding4Noobs - October 29, 2011, 6:20 pm

yeh im just working on new ipn right now, once its complete ill release new login on the next update
new login system is in transit now, jsut need people to switch over :P

Voskhod - October 30, 2011, 3:58 am

I can't get the latest update for Paradox...

Who deals with support here?

Thanks..

Xenon - October 30, 2011, 7:47 am

(Oct 30, 2011 03:58 AM)alex666 Wrote: [\[CITE\]](#) I can't get the latest update for Paradox...

Thanks..

I handle all support. If you could wait until later today when the new licensing system is implemented, it would help us greatly.

Karmadhi - October 30, 2011, 11:28 am

EDIT : NOTHING :D SHORT SHORT SHORT

Coding4Noobs - October 30, 2011, 11:56 am

yeh sorry guys there was a bug in the updater >.< it should be fixed tho... :)

MiserAble - October 30, 2011, 12:14 pm

Karmadhi i think you should remove the link

Xenon - October 30, 2011, 12:49 pm

(Oct 30, 2011 12:14 PM)MiserAble Wrote: [\[CITE\]](#) Karmadhi i think you should remove the link
Once the new licensing system is implemented, there won't be a static download link.

Coding4Noobs - October 30, 2011, 1:25 pm

yup and im almost done today update =D then after it ill release it and start working on website again :)

MiserAble - October 30, 2011, 1:32 pm

good news, i was afirad it from getting leaked..

and what is the changlog would be ? C4N :D

Coding4Noobs - October 30, 2011, 1:51 pm

(Oct 30, 2011 01:32 PM)MiserAble Wrote: [\[CITE\]](#) good news, i was afirad it from getting leaked..

and what is the changlog would be ? C4N :D

im sorry but i didnt quite understand what you were trying say

Also....

*

Login server bug has been officially fixed :P

Information:

When you login to paradox RAT, it adds you connection to a list of other active connections, when you disoconnect from the login server or close Paradox RAT, it was supposed to remove you from this list, but it wasnt, so it wasnt allowing you to login again.

But i officially fixed it, i just forgot ot add a line to the server which would invoke new remove >.<

anyways, it should now be okay.

That feature is in place to stop different DDoS methods, it is one for the 3 antis i have implemented :P

Xenon - October 30, 2011, 3:34 pm

Well the new licensing system has been implemented, and all I can say is that I like it.

Coding4Noobs - October 30, 2011, 4:02 pm

right now its only half implement, forcing you guys to register to it before login in, and if you have already registered then just login...

ill post a tut in a few min

http://www.youtube.com/watch?v=IOYi4_zUksY

Xenon - October 30, 2011, 4:42 pm

I added the registration video tutorial to the original post. If you are having trouble with the new licensing system, watch that video.

Cpt.Insano - October 30, 2011, 5:03 pm

I am having issues updating the rat so may I be PM'ed the link to the current update thanks

Xenon - October 30, 2011, 5:29 pm

(Oct 30, 2011 05:03 PM)Strategic Wrote: [\[CITE\]](#) I am having issues updating the rat so may I be PM'ed the link to the current update thanks

Please PM me with a screenshot of the payment receipt.

Cpt.Insano - October 30, 2011, 7:13 pm

well I paid the old seller so if you know his pp email then tell me so I may show the pic

Coding4Noobs - October 31, 2011, 5:13 am

yeh i sent you a pm regarding the link, next time to lose it and please try to keep up to date with our updates...

Karmadhi - October 31, 2011, 7:32 am

The keylogger isn't working pff =/ Fix it please

Jinxyy - October 31, 2011, 11:27 am

when will it be fud again? its 2 detect avira and avast most used av's....

Xenon - October 31, 2011, 11:29 am

(Oct 31, 2011 07:32 AM)Karmadhi Wrote: [\[CITE\]](#) The keylogger isn't working pff =/ Fix it please
Is it giving you an error? Or is it just not getting logs?

Coding4Noobs - October 31, 2011, 1:34 pm

(Oct 31, 2011 11:27 AM)Nexus Wrote: [\[CITE\]](#) when will it be fud again? its 2 detect avira and avast most used av's....

when i finish obfuscator, and in the next update, it will be cryptable by any .net crypter, and doesnt require EOF support

Jinxyy - October 31, 2011, 2:12 pm

What about better desktop look and webcams??

MiserAble - October 31, 2011, 2:33 pm

(Oct 31, 2011 01:34 PM)Coding4Noobs Wrote: [\[CITE\]](#) when i finish obfuscator, and in the next update, it will be cryptable by any .net crypter, and doesnt require EOF support
that's what i like about this rat, it just started like few months and the coder is still updating the rat and support +1 for c4n

Skyline-leo - October 31, 2011, 4:13 pm

Nice feature and nice price....

suggestion: add the GUI :)

Coding4Noobs - October 31, 2011, 4:23 pm

(Oct 31, 2011 02:12 PM)Nexus Wrote: [\[CITE\]](#) What about better desktop look and webcams??
desktop, ive included 3 different versions, and from what ive seen they all work fine, but i know there is always room for improvements, so i strive to continue developing and enchancing all my

features...

As for webcam, i continuously promise to include it, but every time i almost get it working perfectly, a new bug appears, and i just give up and restart the code over, hopefully ill get it working %100 ASAP

haunterr - October 31, 2011, 6:50 pm

Just bought this , looks like an awesome bot so far! just have a few problems with which the dev will hopefully fix shortly! Highly recommend this rat.

Coding4Noobs - October 31, 2011, 8:14 pm

thanks for feed back and i like i said i strive to make this the number 1 RAT available, im continuously spending all my free time on it and hope to one day have it completely bug less, perfect speed, stability and features :)

Xenon - November 1, 2011, 5:51 am

Sorry about the delay, I had something to do on Halloween, but I will get caught up today.

Karmadhi - November 1, 2011, 7:24 am

Keylogger wont send me logs , the remote desktop doesnt send me screenshots , file manager doesn't show files. The rat basically isn't working.

Exzib - November 1, 2011, 8:28 am

Is the server.exe fud? Or do we need a crypter?

Xenon - November 1, 2011, 10:59 am

(Nov 1, 2011 07:24 AM)Karmadhi Wrote: [\[CITE\]](#) Keylogger wont send me logs , the remote desktop doesnt send me screenshots , file manager doesn't show files. The rat basically isn't working.

The issue lies in your computer itself. Judging from the quality of it when I had to Teamview you, I think my answer is justified.

Exzib - November 1, 2011, 11:09 am

Xenon do we need a crypter to make it fud or is it fud when we build it?

Xenon - November 1, 2011, 11:26 am

Alright everyone, I'm back and answering everyone.

(Nov 1, 2011 11:09 AM)Brother Wrote: [\[CITE\]](#) Xenon do we need a crypter to make it fud or is it fud when we build it?

Currently the only antivirus that detects the built RAT is Avira. You could obfuscate the executable and that may get rid of the detection.

Karmadhi - November 1, 2011, 12:45 pm

(Nov 1, 2011 10:59 AM)Xenon Wrote: [\[CITE\]](#) The issue lies in your computer itself. Judging from the quality of it when I had to Teamview you, I think my answer is justified.

Yeah i bet , thats why i never had problems with other rats , only with this one.

Coding4Noobs - November 1, 2011, 1:18 pm

okay guys im releasing another update tonight with the bugs for the new login system fixed, and maybe keyboard support added to remote desktop

also there maybe a surprise features again like... well if i told yall would it be a surprise... just know it wont be that friends its more of a halloween gift :P well a late one...

Karmadhi - November 1, 2011, 1:39 pm

(Nov 1, 2011 01:18 PM)Coding4Noobs Wrote: [\[CITE\]](#) okay guys im releasing another update tonight with the bugs for the new login system fixed, and maybe keyboard support added to remote desktop

Stop adding shit , you should fix the shit that isn't working.

Coding4Noobs - November 1, 2011, 2:00 pm

[img]<http://dl.dropbox.com/u/23639317/Paradox/Images/capture-2.gif>[img]

what i mean by ti missing charecters is maybe errors when decrypting the packets or maybe fully packet wasnt received due to a networking error...

Skyline-leo - November 1, 2011, 2:23 pm

(Nov 1, 2011 07:24 AM)Karmadhi Wrote: [\[CITE\]](#) Keylogger wont send me logs , the remote desktop doesnt send me screenshots , file manager doesn't show files. The rat basically isn't working.

Question for you: the victim have windows vista? if yes is the problem UAC...

also cybergate have same problem with windows vista (only 1 build version windows) create a .bat for disable UAC and add in startup on victim computer and wait restart.... OR is possible firewall block..

No have this rat but is same error.

Coding4Noobs - November 1, 2011, 2:26 pm

neh it should bypass UAC, it disables it when it adds to startup

Karmadhi - November 1, 2011, 2:53 pm

Explain.

Coding4Noobs - November 1, 2011, 3:40 pm

no idea :P hmm... gimie a min ill release a update with rebuilt stub

ok now try it.... im pretty sure it should work now >.< and if it doesn then its just being blocked by the clients anti virus

haunterr - November 1, 2011, 4:00 pm

An update got released just now , yet when you click Download Updates it opens a popup saying "Choose where to save file to" , you click ok , then nothing happens...

Coding4Noobs - November 1, 2011, 4:08 pm

yeh like i said in the news, of Paradox RAT, the updater got bugged in the last update, just download the newest version of Paradox RAT via the link you were emailed when you purchased Paradox RAT, or goto Tools<Downloader and download it via the link there

please note that we are finally switching to our new VPS so expect some down time over the next few hours sorry :(

Xenon - November 1, 2011, 5:08 pm

(Nov 1, 2011 04:08 PM)Coding4Noobs Wrote: [\[CITE\]](#) yeh like i said in the news, of Paradox RAT, the updater got bugged in the last update, just download the newest version of Paradox RAT via the link you were emailed when you purchased Paradox RAT, or goto Tools<Downloader and download it via the link there

I'm going to code you a new updater that works 100% of the time. lol.

Coding4Noobs - November 1, 2011, 5:22 pm

no it should work now, just before, i had a check statement, to check file path before one was selected xD error when i was changing my code around :P

HakkuR - November 1, 2011, 6:52 pm

Update has been take care of please as Xenon for the update.

Coding4Noobs - November 1, 2011, 7:48 pm

please contact me or Xenon for new update :)

20MDM - November 1, 2011, 8:19 pm

Are your built servers always FUD? Pm with answer.

Coding4Noobs - November 1, 2011, 8:41 pm

pm'd you, remember to get your update guys, and pretty soon new web panel will be added

Xenon - November 2, 2011, 11:20 am

Alright I'm here for the day. Let the sales roll.

Coding4Noobs - November 2, 2011, 1:16 pm

hows the keyloggr with new stub karma?

Karmadhi - November 2, 2011, 2:48 pm

Still not working

Coding4Noobs - November 2, 2011, 2:53 pm

notice how none of your servers say 2.9.6 thats why...

Karmadhi - November 2, 2011, 2:55 pm

Okay then let me update and rat myself , and see if keylogger works.

Well i just created a new server , and when i infect myself it shows as 2.9.5

IceKiller3 - November 2, 2011, 3:02 pm

Can't log in for a few days now :/ "Error logging in"

Xenon - November 2, 2011, 3:08 pm

(Nov 2, 2011 03:02 PM)Dirty South Wrote: [\[CITE\]](#) Can't log in for a few days now :/ "Error logging in"
Did you get the new update yet? Everything pertaining to licensing is working fine now.

Coding4Noobs - November 2, 2011, 3:11 pm

(Nov 2, 2011 02:55 PM)Karmadhi Wrote: [\[CITE\]](#) Okay then let me update and rat myself , and see if keylogger works.

Well i just created a new server , and when i infect myself it shows as 2.9.5
try keylogger with updated server...

Karmadhi - November 2, 2011, 3:18 pm

(Nov 2, 2011 03:11 PM)Coding4Noobs Wrote: [\[CITE\]](#) try keylogger with updated server...
When i try to create a server , it shows as 2.9.5 not 2.9.6

Coding4Noobs - November 2, 2011, 3:32 pm

but does keylogger work on new built server i might have forgot to edit the text :P for the server

Karmadhi - November 2, 2011, 3:53 pm

Nope , it doesn't work =/ I tried all possible things but it doesnt =/

Xenon - November 2, 2011, 5:21 pm

(Nov 2, 2011 03:53 PM)Karmadhi Wrote: [\[CITE\]](#) Nope , it doesn't work =/ I tried all possible things but it doesnt =/

You just don't seem to listen well.

Coding4Noobs - November 2, 2011, 7:12 pm

(Nov 2, 2011 05:21 PM)Xenon Wrote: [\[CITE\]](#) You just don't seem to listen well.
yeh cause i have it working not with the stub so idk what his issue is >.<

haunterr - November 3, 2011, 8:43 am

Is there some type of new update going on ?:) I can't login for quite a few hours now (gets stuck at Update .NET Seal Account window)

1337God - November 3, 2011, 9:22 am

(Nov 3, 2011 08:43 AM)haunter90 Wrote: [\[CITE\]](#) Is there some type of new update going on ?:) I can't login for quite a few hours now (gets stuck at Update .NET Seal Account window)
Same here, i wish i never bought this piece of shit , it isn't even completed yet...

Voskhod - November 3, 2011, 10:28 am

I think its unfair to say it isnt complete..

Most software is constantly updated and improved over time....

Any program that stands still becomes a dinosaur in a fairly short period...

I'm having problems myself but I am pleased to see this product is constantly being upgraded and improved....

Its the main difference in the long run between a mediocre RAT and an outstanding RAT..

MiserAble - November 3, 2011, 11:00 am

(Nov 3, 2011 10:28 AM)alex666 Wrote: [\[CITE\]](#) I think its unfair to say it isnt complete..

Its the main difference in the long run between a mediocre RAT and an outstanding RAT..+1
I WAS ABOUT TO SAY THE SAME THINGS, C4N, XEON keep up the good work guys

Xenon - November 3, 2011, 11:22 am

Thanks. I think I have most of the licensing issues sorted out. I'm going to have to contact C4N later about possibly making the licensing system easier for me to provide support with.

Coding4Noobs - November 3, 2011, 1:18 pm

apprently my login server had crashed so i just restarted it sorry guys, ill look into why it crashed...

Xenon - November 3, 2011, 4:24 pm

I'm back for the remainder of the night to answer any questions from anyone. Message me if you want to purchase!

haunterr - November 3, 2011, 5:13 pm

(Nov 3, 2011 04:24 PM)Xenon Wrote: [\[CITE\]](#) I'm back for the remainder of the night to answer any questions from anyone. Message me if you want to purchase!

I logged in click the chat room , and it logged me out , now it wants me to REGISTER my license , and ofc it says it's already in use...please advise

Coding4Noobs - November 3, 2011, 5:18 pm

i just did major updates to DB that could be why sorry

haunterr - November 3, 2011, 5:27 pm

(Nov 3, 2011 05:18 PM)Coding4Noobs Wrote: [\[CITE\]](#) i just did major updates to DB that could be why sorry

Well that's ok as long as u can give me a fix lol:P

Coding4Noobs - November 3, 2011, 5:32 pm

do you still have your old info that should work :)

Xenon - November 3, 2011, 6:29 pm

If your having some licensing issues or you haven't moved to our new system, please allow us a few hours of maintenance. All the issues will be dealt with shortly.

Coding4Noobs - November 3, 2011, 10:20 pm

i added a new auto buy let me know how it goes :)

1337God - November 4, 2011, 9:43 am

Any chance i can get a refund? This rat doesn't work.

-Hyperion - November 4, 2011, 9:59 am

It has just asked me to re register and it will not take my info. Wtf is going on?

SkyRider - November 4, 2011, 10:49 am

getting better and better keep it up guys

Xenon - November 4, 2011, 11:34 am

(Nov 4, 2011 09:43 AM)Teh Wrote: [\[CITE\]](#) Any chance i can get a refund? This rat doesn't work. If you explaine the issue you were having then we would be able to help.

-Hyperion - November 4, 2011, 2:05 pm

You still have not explained why it asked me to re register and is not taking it.

1337God - November 4, 2011, 2:43 pm

(Nov 4, 2011 11:34 AM)Xenon Wrote: [\[CITE\]](#) If you explain the issue you were having then we would be able to help.

The issue is that RAT isn't working. It doesn't send keylogger logs , remote desktop sometimes works sometimes doesn't , and when it does it's slow as fuck.

haunter - November 4, 2011, 4:19 pm

(Nov 4, 2011 02:43 PM)Teh Wrote: [\[CITE\]](#) The issue is that RAT isn't working. It doesn't send keylogger logs , remote desktop sometimes works sometimes doesn't , and when it does it's slow as fuck.

I also have the issue that NO commands work. (only screen preview , and system info work)

Also update 3.0.1 is out yet the client gives an error and closes whenever you try to download that update...

1337God - November 5, 2011, 8:32 am

Can u give me permission to sell my licence to someone else? -.-

-Hyperion - November 5, 2011, 9:15 am

How about if you don't fix this I call up my credit card company and have them cancel? You have had more than enough time to respond.

Xenon - November 5, 2011, 10:21 am

(Nov 5, 2011 08:32 AM)Teh Wrote: [\[CITE\]](#) Can u give me permission to sell my licence to someone else? -.-

I'll ask the coder to post here with his answer.

(Nov 4, 2011 09:59 AM)~Azrael~ Wrote: [\[CITE\]](#) It has just asked me to re register and it will not take my info. Wtf is going on?

Try a different username/password combination to register.

SkyRider - November 5, 2011, 10:30 am

(Nov 4, 2011 02:05 PM)~Azrael~ Wrote: [\[CITE\]](#) You still have not explained why it asked me to re register and is not taking it.

pm me i will give you a new serial ?

Coding4Noobs - November 5, 2011, 11:06 am

Also update 3.0.1 is out yet the client gives an error and closes whenever you try to download that update...

that's why said you need to pm me or xenon for the update link to 3.0.1....

ill just put it as today's mod....

also...

http://dl.dropbox.com/u/23639317/Paradox/Images/Capture.PNG[/img]

anything else not working cause to me... it looks perfect o.O

MiserAble - November 5, 2011, 11:14 am

i give this rat a 3 month max (of cause with this regular 2 updates in a week!) and it will one of the best rats

1337God - November 5, 2011, 12:07 pm

(Nov 5, 2011 11:06 AM)Coding4Noobs Wrote: [\[CITE\]](#) thats why said you need to pm me or xenon for the update link to 3.0.1....

ill just put it as todays motd....

also...

[img]<http://dl.dropbox.com/u/23639317/Paradox/Images/Capture.PNG>[/img]

anything else not working cause to me... it looks perfect o.O

For some reason your the only one that stuff works for , also answer my question

Coding4Noobs - November 5, 2011, 12:15 pm

not at this time, it says in our TOS you cant, also i havent finished that part of the login system cause you would have to change you HWID and account email

-Hyperion - November 5, 2011, 12:16 pm

edit: problem is fixed thanks a lot guys.

1337God - November 5, 2011, 1:49 pm

Dude FUCK that , why isnt it working :(

Coding4Noobs - November 5, 2011, 2:11 pm

why isnt what working? what isnt working the login or registration ?

Xenon - November 5, 2011, 4:22 pm

The login server is still down due to a DDoS. Updates will be posted when they come.

Coding4Noobs - November 5, 2011, 4:28 pm

only the website should be down.. the login server should be online last time i check like 5 min ago...

Robert Nesta Marley - November 5, 2011, 5:28 pm

Any chance of a try before I buy? Even just 20 mins would be enough for me to test some things..

Xenon - November 5, 2011, 5:35 pm

(Nov 5, 2011 05:28 PM)Brian. Wrote: [\[CITE\]](#) Any chance of a try before I buy? Even just 20 mins would be enough for me to test some things..

Sorry, we don't offer trial runs due to the nature of the licensing system.

sWEeTBoY - November 5, 2011, 10:11 pm

this RAT is FuD ?? and it stealer new firefox and opera etc ?

Regard

Coding4Noobs - November 6, 2011, 12:12 am

no its not FUD atm sorry im workin on a obfusucator still to try to FUD it or atleast remove most of the detection >.<

1337God - November 6, 2011, 1:28 am

Coding4Noobs - November 9, 2011, 8:28 pm

connections seem to be staying active now and being properly removed when disconnected

Immortal - November 10, 2011, 2:45 pm

Verry, Strong And stable now :D Fixing remote desktop

-Hyperion - November 10, 2011, 4:35 pm

Any idea how long until webcam up? Or any plans to add phone spreader?

phone spreader?

i was thinking about a phone webpanel to control, your bot from, and i plan on releasing the remote webcam this weekend, tho its gunna be a little slow untill i figure out a better way to send images :P
right now the only thing sending images at a decen and accurate speed is the preview :P but
anyways im working on a update right now.... so far:

- Fixed Memory Leak Bug, causing Paradox RAT.exe to crash and use a lot of memory / Cpu, it now stay around 15,000 to 50,000 memory depending on amount of bots online
- Added Active Winow

- Shrunk Server Size by %30
- Form Closing - Would Freeze and not close
- Listener Stop - Would Freeze and not close

im gunna fix Remote Desktop TCP and mixed in this update
