I don't play Minecraft at all anymore, so I've decided to sell my minecraft alpha account.

I'm selling it for \$20 USD Paypal OR highest offer (Must be at least \$14)

This account is not hacked, so there's no chance of the hacked person retrieving it, and has not been banned from any servers.

If you are interested, reply to this thread and private message me.

Not trying to ruin your sale here, but people sell MC Premium accounts for 0.15-1.00\$. I think you are asking for too much.

I lowered the price though.

There's no difference between accounts made during alpha and accounts made any other time.

Accounts made during alpha do not have to pay for any new features after the full release is out, but people who bought it during the beta or afterwards have to pay for the new features.

Awesome, good for them.
But this isn't their thread, and gift codes don't get you an alpha account.
