Deleting stolen YT videos for free:

- Ub3r-3 clips per person
- Hf L33T-2 videos per person
- SAMPLE USERS-1 video per person

Dont send me videos that you would like to delete without reason,ONLY if that video is stolen,i will delete them fast-

-Original video must be on youtube,so you need to send me: Original video link,and stolen video link.

-You need to have 50 posts to pm me,or i wont answer on pm-Why? because many ppl will create alot of accounts without upgrading just to pm me about delete'ing some vid...

If you are legit, I commend you for helping the users at HF.

Just please, make sure to examine the videos closely, someone might have a grudge against an innocent person and request you delete a video of theirs.

Also, is this done via flagging the video?

If not, I would appreciate it if you PM'd me how.

Thanks.
