Thread: [\[Resale\] BlackShades C/C++ Crypter -- \\$20 CAD PayPal](#)

Kyuubi - October 24, 2011, 9:46 pm

soon to be verified by admin payments will be sent to me and then activated by BV1.**

HyFury - October 24, 2011, 10:04 pm

I'll have this by tomorrow :)

Is each crypt crypted with a different stub!?

Kyuubi - October 24, 2011, 11:09 pm

Some of the variables are randomly generated.

PM me if you are interested in buying this!

?y??rion - October 25, 2011, 1:13 am

Pretty sure Bshades crypter is something like 13/28 at the moment, I'd wait till a new stub is released.

DarkSwag - October 25, 2011, 2:40 am

I've this crypter since 1 month and it's never fud (best result I get is 8/35)

Kyuubi - October 25, 2011, 10:25 pm

That's going to be fixed, crypter is still for sale! Get it now for 20\$!

Not a good start man , i hope you get this all sorted out .

LOL

So far it seems to be just like every other BlackShades product

D??M! - October 26, 2011, 2:04 am

New Bshades product will be out within the week, expect a crypter update shortly after. Anyways, he is authorized to sell this.

Kyuubi - November 8, 2011, 8:49 pm

Protector has been updated: this is still for sale.

jorje2008 - November 9, 2011, 6:14 am

It looks nice, good luck with sales.

Kyuubi - November 29, 2011, 1:07 am

Protector is updated and FUD. Still for sale!

P4NIC - November 29, 2011, 3:43 am

bshades.eu does not work anymore
what's the reason ?

Kyuubi - November 29, 2011, 6:47 pm

Still for sale, anyone want to buy?

H???? - November 29, 2011, 11:30 pm

so i heard it is 8/35..? at best..

you know you can even c&p a source code that is 5/35 at most....

Kyuubi - November 30, 2011, 1:51 am

They fixed it, the protector was recently updated.

Kyuubi - December 14, 2011, 9:07 pm

Still for sale if anyone wants to buy.
