I want to be a l33t member because i helped alot of members on Hackforums, and if i am l33t it would be more easier to help them. I am an member since apr 2010 and really want to be an l33t member now. I love hackforums and i am online alot of times, but my english isn't very good because i come from Netherland. I am always helping members if they need help, and i am doing it for free. I would do more when i am l33t, because as a normal member i don't have much. I will do more giveaways, etc. Thanks for reading my application, Cali.
