That is how far i've got.

I'm looking to buy someone to design the template, including all images, and logos.

The kind of theme im looking at is:

Something nice, simple and effective.

Serious replies only. ?

EDIT: Give me a rough idea of price by posting here or via PM.

How much are you paying?

I've done some site designs, and I'd be happy to try.

Updated the OP. I'm not exactly sure what something like this would cost so could you give me a rough price. For me, it really does depend on how happy and how quickly it gets done.

DONT deal with this user , Claims you to be a scammer after saying i dont want to do the project without receiving money first LOL

If that guy was a bit more than you were hoping to pay, message me what you were hoping to pay, I'll have a nice design for you finished up within 24 hours.
