Thread: [24/7 Backlinks - FREE 1K Backlinks for ur site](#)

GriZzLy... - October 29, 2011, 3:28 am

Hello ,

24/Backlinks is going to spread free 1K Backlinks to everyone who register in their site .. The best thing they have are scheduled backlinks :D so let`s read about them and register...

What Are Scheduled Backlinks?

Scheduled backlinks are a great addition to any internet marketer's linking portfolio.

Our scheduled backlinking service allows you to create links quickly and easily for any URL you choose. You can then easily download a full list of links created for each day through your control panel - so you can ping or do what you will with them.

Create new link projects quickly and easily, edit or schedule them to be run at any time.

There is a complete "how to" section in our FAQ if you want to find out more about creating link projects.

Your URLs will receive a steady flow of inbound links every day using the exact keywords you specify from our massive database of link accepting websites. Which is exactly what the search engines are looking for!

Some Highlights...

Receive full daily reports of each link we create for you from our database of over 33 million URLs!

Customize every single aspect of your link creation. Edit your link titles, urls, names, comments, and run dates!

We make ÜÑÎÇÔÐÉ a cinch. Promote your non-English web properties just as easily as your English ones!

How Do I Get Started?

To sign up, click here and fill out the form. You will gain access to your account the second you verify your email address!

It's free. You get 1,000 free backlinks just for joining - and if you want any more it's as simple as referring a friend or sending a PayPal payment.

How Fresh Is Your Database?

It's so fresh, it's practically alive!

We are continuously adding to, verifying, and modifying our links database to bring you the freshest link index possible.

By the time it has taken you to read this far down the page for example, we have probably added 50 odd "postable" URLs to our list.

Most link sellers abuse the same old list of links for months, diluting the effect to all of their clients. At 247backlinks.com some of your links will be coming from domains that have never had an outbound link created on them in their (short) life!

Once again - the search engines love this stuff!

Who Can Benefit From Scheduled Backlinks?

Scheduled backlinking can be enjoyed by anyone who wants to promote their presence online and be seen in the search engines.

It is a long known fact that backlinks are the main factor used by search engines to determine their results rankings. It was basically the primary reason that Google's search results were such a success.

From http://en.wikipedia.org/wiki/History_of_Google#Early_history

... [Larry] Page focused on the problem of finding out which web pages link to a given page,

considering the number and nature of such backlinks to be valuable information about that page (with the role of citations in academic publishing in mind). In his research project, nicknamed "BackRub", he was soon joined by Sergey Brin, a fellow Stanford Ph.D. student supported by a National Science Foundation Graduate Fellowship.

From http://en.wikipedia.org/wiki/Backlink#Search_engine_rankings:

Search engines often use the number of backlinks that a website has as one of the most important factors for determining that website's search engine ranking, popularity and importance. Google's description of their PageRank system, for instance, notes that Google interprets a link from page A to page B as a vote, by page A, for page B.
