Thread: [Linux version 2.6.18-194.17.1.el5](#)

**sp1k3** - October 29, 2011, 4:48 pm

help need root exploit for this

Linux version 2.6.18-194.17.1.el5 (mockbuild@x86-002.build.bos.redhat.com) (gcc version 4.1.2 20080704 (Red Hat 4.1.2-48)) #1 SMP Mon Sep 20 07:12:06 EDT 2010

thanks for help

**HaxOr?** - October 29, 2011, 4:54 pm

Try <http://www.mediafire.com/?ssinsr9539p0bb9>

**sp1k3** - October 29, 2011, 4:59 pm

Not work but thanks for help

**jhango** - November 10, 2015, 11:29 am

someone have working root exploit for 2.6.18-194.17.1.el5 ???

do you have working root exploit for 2.6.18-194.17.1.el5 ?

**Tricks7er** - November 10, 2015, 2:14 pm

Try this, perl local autoroot including 2010 kernels <http://pastebin.com/pVL4FFvw>

?

thank you bro but i dont't have Back & Bind connect

i try also the latest autoroot2014.txt but the server is hang i can't also access the site.

maybe you have ways for this ?
