Jailbreak iOS 5 5.0 on iPhone 4 iPod Touch iPad with Redsn0w SEMI-TETHERED

Notes It has been announced that the current version of Redsn0w works on the public release of iOS 5. Read on for instructions on how to jailbreak it. Note that this jailbreak is tethered and will require a tethered boot after the device is turned off or restarted. But you can semi tethered

Devices Supported:

iPhone 4

iPhone 3Gs

iPad

iPod Touch 4G

iPod Touch 3G

Downloads

[Redsn0w 0.9.9b4](#)

[IPSW](#)

[VT scan on Redsnow](#)

[img]http://koolmobile.net/wp-content/uploads/2011/09/ios5-pwned.jpg[/img]

So lets go here is the Steps

Step 1: Open Redsn0w and select "Extras".

2. Click "Select IPSW" and browse to where your iOS 5 firmware is.

3. Go back and click "Jailbreak".

4. Follow the instructions on screen to put your device in DFU mode.

5. Wait for Redsn0w to jailbreak your device and have it reboot into tethered mode.

6. Click "Back" on Redsn0w, and then click "Extras".

7. Select the boot tethered option and follow the instructions to put your device in DFU mode again

8. Wait for your device to reboot, and you're done!

Semi Tethered

1. Start Cydia

2. Navigate to the Sources menu in Cydia, and add the source: "http://thebigboss.org/semitether".

3. Open the source, and there should be one package titled "SemiTether".

4. Install the package and restart Springboard.

5. Open the SpringBoard icon named "SemiTether"

6. Turn Safari Patch to "ON".

7. Reboot your iDevice and make sure everything is running right. If not, then just tether boot and uninstall this package.

WARNING

[img]http://ffr-fast.webs.com/Anim-tactical-nukeemblem.gif[/img]

If you are using Installous it will not work any more because it removes app data!
Thats all Thanks for me Creds to dev team And me ?

BTW iphones need to install ultrasnow in cydia to make it work?

aiir - November 1, 2011, 2:47 am

Do you know if there is any Ipad 2 ios5 jailbreaks? I need Cydia

henkesyao - November 1, 2011, 3:05 am

Yes The Dev theme has jailbreakt Ipad 2 but its only in baby stage but its coming a public release soon stay tuned

Nice tutorial, however this has been posted plenty of times.

D?le - November 1, 2011, 8:42 am

How do you get the ios5 firmware on your computer?

henkesyao - November 1, 2011, 10:18 am

Sorry man it was a problem but check in download the second way is to search ipsw on youre computer Thanks iRun ? . btw if you have problem whit the ipsw file try to change de zip name to ipsw [Video: <http://www.youtube.com/watch?v=etl35rtock4>]

NOOB5029 - November 1, 2011, 12:31 pm

>_> put on the thread title SEMI-TETHERED.

henkesyao - November 1, 2011, 1:50 pm
