Thread: [Are you HF's biggest Lounge whore?](#)

Omniscient - November 21, 2009, 11:15 pm

Go to anyone profile and find out? For fun I created and added a neat plugin which will give you the percentage of posts by a member for one forum. I have it set of course to the Lounge.

Example Lounge Whore: <https://hackforums.net/member.php?action=profile&uid=11953>

So what's your percentage?

Enjoy.

Ryxa - November 21, 2009, 11:19 pm

LOL

Only %12.

Paradoxum - November 21, 2009, 11:20 pm

I got a whooping 6%.

Omniscient - November 21, 2009, 11:22 pm

Realize the percentage is based on all posts. It doesn't look at the Post Count number in profile since that DoomAid has hundred of posts but only 50 outside of the Lounge. So yeah his percentage is huge at 95%.

I thought this would just be a fun stat to have so we can see how much a person actually contributes versus post bullshit. I created something similar to this in 1.2x of MyBB too but never bothered for 1.4x till today.

I'll probably release this later on at Mybb Central.

Nyx- - November 21, 2009, 11:23 pm

The Lounge 64%

This is pretty awesome though ^^ Thx for it

iRtehLeet™ - November 21, 2009, 11:26 pm

Pretty cool, I'll check mine.

Edit ~ The Lounge - 7% ?

Omniscient - November 21, 2009, 11:28 pm

Worth the hour of coding imho. I enjoy the stat too. Realistically I am a stat whore because I tend to analyze them all the time. I don't care about my personal stats as much as site stats for various things.

btw..Hydrocodone is great. Let's all hear it for opiates!

psh hydrocodone is a joke, get some oxys.

I like this, I'm at 51%

oliver96 - November 22, 2009, 1:57 pm

This isn't 100% accurate as according to the system a member with 1 post in the lounge and nowhere else makes them more of a lounge whore than someone with 900 posts in the lounge and 100 posts somewhere else.

This is 100% accurate. What are you fussing about?

As for encouraging Lounge whores. They don't need encouragement to post shit in Lounge.

Thanks everyone for the input on the plugin. Glad you like it. I'll try and zip it up for release soon.

Only 8% here

Does this include posts in the News subforum?

fagalite - November 24, 2009, 12:20 am

34%

on a side note i have

1720 posts...

also for all you newbs wh ocant do math, the formula is

total posts = [post count/(100-lounge%)] times 100

so

1720 = 1135/34 times 100

Ph1sh - November 24, 2009, 12:49 am

So... 631/74 * 100

I think I did something wrong. Apparently I only have 852 posts...

It's a live stat. There is no cache and it just does the queries on a profile view.
