Thread: [\[FREE\] FUD SERVICE \[FREE\]](#)

guapoox - November 4, 2011, 7:06 am

Hi, I FUD your server, It doesn't matter what kind of Keylogger or RAT you are using, I will FUD Crypt it, It will be 0/35 ...

If you want to make a request Please make it correctly in thread.

Your MSN:

TimeZone:

Time when you are online:

There is only 1 RULE, DO NOT SCAN ON NOVIRUSTHANKS, JOTTI OR VIRUSTOTAL.

Once, done all this information, I will contact you, and FUD your server.

I am only accepting some 15-25 Requests for this thread, for vouches, and free services to test out. So don't waste your time, be first and get first ...

- PS; Please don't come with arguments that i am not trusted member, or something, for that you can check on my profile, I am an older user, and my vouches.

nice thread
Look at your computer table, It's UTC+? or GMT ...

That's the timezone.. for more, google does it.

except stealers that are executed on 1 time.

I can FUD your stealer but not RAT.
That's why i closed the thread.

I'm sorry..
