Thread: [\[TUT\] Spreading TUT](#)

**Codeine** - November 22, 2009, 12:32 pm

Lol so i was just looking for a place to spread my rat when i found this site

Code [www.chatbazaar.com](http://www.chatbazaar.com)EDIT:Go to that chat on a differnt proxies cuz you get banned after posting ur link like 5times lol but with in 5times u get alof of downloads

On that site you dont have to sign up or nothing you can just be a guest (with a custom name)

And basicly its extremely easy to spread just change ur name to like H0rnychick or some shit like that. Be female age 19.

Anyways once you've done that just say something like

"Anyone wanna check out my sexy slide show i just made ;) DOWNLOAD LINK"

lol and basicly within minuets you will have a bunch of downloads

**tuscared** - November 22, 2009, 12:53 pm

I made a TUT just like this a while back, but the people on the chat website I used contacted the mods and now u cant use links on it.... thanks for the new website though!

**Bl?ze** - November 22, 2009, 3:10 pm

thanks for the advice, doesnt seem to be all that many people in the chat rooms though.

**The 7th Sage** - November 26, 2009, 7:39 pm

You should add some more things like youtube, torrents, etc :) Btw do chatroom people download such stuff? On meebo they don't.

**awerty** - November 26, 2009, 8:37 pm

I havnt tried but I would imagine chatroom people would fall for that kind of thing. Chatrooms seems to consist of either younger people who are computer illiterate, older people who are computer illiterate, or horny men who are computer illiterate (not always but the others are just that desperate.)

Interesting i shall have to take a look at this later thanks for sharing.

**Alex©** - August 9, 2013, 6:24 am

You have to have some SE skills to spread in chat rooms it can sometimes be hard to spread.

**HellaCrow** - October 6, 2013, 11:47 am

You cant make it sound too unrealistic and some social engineering skills will help.

**Kastoe** - *October 6, 2013, 11:51 am*

Going to use it for spreading ;) Good tutorial.

**David Tennant** - *October 6, 2013, 1:18 pm*
