Other:

Yes, I am quite new to this forum so most of you will not know me to well, I spent some time on this E-book after reviewing many other methods available on the internet, finally found one which works somewhat decently and better than most other methods e-book sellers will provide you with. Since not many people know this method, I will only give this link out UNTIL their is 50 downloads.

Once it has hit 50 downloads, I will delete the download link and none of you will be able to access it for future use.

How to get it:

To recieve this, YOU MUST POST HERE AND PM ME, I will reply back with the download link of the E-Book, I have posted this same topic on about 3-4 other forums and it will be first come first serve for the first 50 people.

Thank you.

P.S. It is File Ice, don't complain later on if you thought it would be a direct link, it isn't.

I love how nobody wants to download because it is File Ice, they call me greedy but they can't complete a 5-10 minute survey and expect the ebook for no effort at all. Great lol, not even gonna bother posting e-books on here anymore, was a great first experience.
