Great method, worked first time :D , any ideas on how you can exploit this and get more then 1 code

Fuckadoodledoo - November 6, 2011, 5:24 am

I have no idea.

I'm guessing it goes off something to do with your PC and not internet as if you delete and re-download the programme you get te same code.

Im guessing you could get a virtual machine, install a OS, download hotspotshield get the code and repeat
