Thread: [\[\\$2\] HF Group Userbar - Paypal \[\\$2\]](#)

Biggrodd - November 6, 2011, 4:04 am

Hey fans! :D

Info:

Anyone want a nice group userbar?!

Too easy, just let me know, I'll see what I can do.

If you like what I make buyout is \$2.

Examples of work are provided below.

Terms Of Service:

- Working on max 2 at any one time.

- Must provide text wanted on userbar and colour.

- Include any icon/image you would like on the userbar.

(If unsure I can give my best shot with what I find).

- I have the right to reject or stop a request, purely because I know the limit of my capabilities.

Examples:

Clearly I like the shine. :P
