Thread: [ASCII up arrow dec keycode?](#)

Xirian - November 6, 2011, 4:36 am

Hey guys. I need to know, but I can't find out, what the dec keycode for the up arrow is in ASCII?
Thanks.

Its somewhere in there I think.

How do I use those "friendly codes" in Delphi? Those aren't dec codes. ?

Those aren't dec codes. ?

There's one column which says "hex".

Use your built-in windows calculator to convert hex to decimal for Delphi.
