Thread: [running applications .exe on school laptop](#)

coco7 - November 10, 2011, 7:11 pm

I want to know how to run applications on my school laptop such as games and programs and software and stuff but im a student so it all blocked

Insidious. - November 10, 2011, 7:14 pm

Well. You would need to gain access to the Administrator Account. Also, learn batch, and some CMD commands. You'll be fine and you'll easily have access. I'm to lazy to teach you.

Most schools, like mine, have batch either disabled or no permissions with it.

Like I can't even do ipconfig renew
because I don't have permission

BBall Star - November 10, 2011, 8:36 pm

When I went to high school, I couldn't even open Command Box...

coco7 - November 10, 2011, 8:53 pm

Anyone know what to do to beable to bypass it?

Cosmo??? - November 10, 2011, 8:55 pm

The best way to bypass it is reformat the HDD. Do this BEFORE you start up windows, in the BIOS. Look up a tutorial, or use a windows vista/7 disc.

CitrUs - November 10, 2011, 8:57 pm

If it's a small enough .exe then just run it off a external hard-drive or USB. I run VBA Emulator on our school laptops off of USB ;P

Wouldnt the school find out next time i hand it in for an update?

Leothead11 - January 13, 2012, 5:55 pm

What we did at our school is placed any file we wanted to run in a folder under C:/windows/system32/catroot2/{F750E6C3-38EE-11D1-85E5-00C04FC-295EE} and everything worked from there.
