Thread: [Search Free Keylogger Antivir UD + Steam](#)

Fiddleking - November 13, 2011, 8:00 am

Hey guys,

i am new in this forum and my english isnt the best , because i am from germany.

Before a bit i used the Elitestealer with a IStealer control panel. (now he is detected by Antivir)

Now i search for a Stealer which is Antivir undetected and could hack Steam . Please write back . (When u have an detected Logger who could hack steam passwords too .)

THX
