Thread: [Looking for a RDP - Brute Force Tool](#)

juacker - November 16, 2011, 8:06 pm

Hi I was looking for a cool rpd brute force that scan ranges of ips and brute force it .And come with a dictionary

I was looking a free one or a private one.
If private one send me a PM

Sorry to make a thread but this is urgent

Thanks for your time.

I readed somthing about rdprobe. maybe thats what you searching for?

juacker - November 16, 2011, 8:31 pm

2-3 months ago I see a Rusia tool which you put a range of ipd many proxys big username and password list.

And wait

I hope someone have someone have a similar tool

I have a rdp brute forcer I found it here on hf, search for it .. if you have problems pm me :)

V3R7!90 - November 16, 2011, 8:42 pm

i found this one on my hard drive -> <http://www.multiupload.com/KDMSK1F60Z>
maybe this what u searching for =)

juacker - November 16, 2011, 8:56 pm

I will try all the tools you gave me .. Ceas4r no problem with virustotal??

V3R7!90 - November 17, 2011, 10:04 am

why should it be a problem?
scan it wherever you want =p
