Why I want to win: I would like to win this contest because if I am to be upgraded, I would then be able to help people on the forums from a different stand point. And having the upgraded member benefits would also be helpful for me.

Why I should win: As I stated above, I would be able to help members here from a different stand point.

Is Powerful kool?: Indeed you are kool. Only the kool kats host contests like this and enjoys giving the chance for non-upgrade members to be upgraded.

Are you 70% skid?: No, in my opinion I wouldn't think of myself as a skid.

What I have contributed to Hackforums: Well, I haven't created many threads, but I can assure you I help out a lot. Being a member of The Alliance, I am required to help out in various sections of the forums daily.

What I have contributed to Hackforums(VIP forum links allowed): I've done Gamertag Giveaways, but think that the links have been deleted for some reason. My participation on this site benefits everyone as well :3

Seeing to that as I may of not been able to post links or pictures, I doubt I will win. I'm not lying about Omni accepting me also, or anything else. Whoever wins, congratz. I don't know him personally, but if it isn't me, I hope it's Sodomy.

I want L33T

Name:Jerome

Why I want to win: Cannot get the money to purchase upgrade.

Why I should win: I am continually trying to contribute my knowledge that I learn and help others. I've never met anyone that dislikes me at this community and haven't received any negative rep. I try to be as respectful and HQ as I can and just generally try to be a good factor in the community. Gave many people free things such as Gold membership, OG gamertag's, a boost or need help getting something.

Is Powerful kool?: Oh yea ;)

Are you 70% skid?: Nope

I'd love l33t

Name: NumberEleven

Why I want to win: I am currently experiencing debts with my parents/family and have no funds to buy this upgrade. So, by someone else doing this for me, not only will it save me buying it in the future; it'd also help me out greatly!

Why I should win: I try my up most hardest on the HF to please everyone i meet. I always am active on all the forums making sure no members are struggling at easy tasks to which could be completed without hassle / hesitation done by me. I always make sure that my posting on threads is always up to the HQ that'd anyone would expect them to be at. I am a very active member of the HF and i believe that this is a real good reason for me becoming apart of the I33t team, so i can make sure that no user is experiencing problems and their problems to be resolved as quick as possible. So, i think i should win because of my expertise and experience when it comes to the forum and the broad knowledge of all areas i have.

Is Powerful kool?: Yes, Yes he is.

Are you 70% skid?: Being apart of the Rats crew must consequently mean i am 70% skid; so yes, i am.

What I have contributed to Hackforums: My broad knowledge of most areas when it comes to hacking. I also have made sure that the forums itself is a much nicer place to be in, by welcoming new HF members into the forums and giving them advice when needed. I also make sure as mentioend above; that everyone to which i say is clear and at a quality which is expected by the member whom which may have posted it. I have also had a huge participation in the beginner and RAT sections. This has been influenced by me being apart of the RATS crew and by the knowledge to which i have in this area. I've realised many ebooks for free; which have influenced many users on becoming educated in that specific area and made sure that they don't struggle in peace.

I may have only been apart of HF for a limited amount of time, but the things to which i have learnt, have most definately helped me when it comes to answering any questions and even during school/ICT work. So, by giving me this oppurtunity to upgrade to I33t; i'll make sure i'll continue in what i am doing and make sure no member of the hackforums is struggling.

I'm seriously pissed off. Zach gave me another chance into RC, and zombot ruins it. I joked about pulling a "perfect" scam on a newbie. He SS'd the convo, sent a pm to Omni and Zach. I don't know what to do, still fucking scared about Omni banning me, and I was kicked from RC.

The reason I am posting this, is that I might get banned and this contest wouldn't matter. Hopefully if by some chance Omni does decide to ban me, I have a winner and I already upgraded.

Ryan' - November 19, 2011, 10:40 am

I want to upgrade to ub3r.

Name: Ryan.

Why I want to win: I would like to win simply so I can obtain ub3r status.

Why I should win: Well, I'm in debt at the moment; nothing major, and I can't buy it for myself just now.

Proof of being accepted by Omni(Pic with link blurred): Spoiler ([Click to View](#))

Is Powerful kool?: The koollest.

Are you 80% skid or 70% skid?: Neither.

What I have contributed to Hackforums(VIP forum links allowed): I can't really link you to anything specific. Being in TA means I have to be of help to at least a certain amount of members per day. So, most of my posts are helping members out with any troubles they have. So, I don't contribute via giving stuff away or making tutorials - It all comes down to helpful posts.

Name: Valderino!

Why I want to win: I'd really like to be able to thank people who've helped me so much and have made HF a better place for me and everyone else! :)

Why I should win: I honestly don't deserve to win as much as some other people who've posted here do, I will however be incredible grateful if I did win, and would do everything in my power to make sure I deserve to be upgraded. :)

Is Powerful kool?: Lol, umad bro? Stop drinking the kool-aid. Jokes. XD Powerful seems pretty awesome for doing this giveaway :D

Are you 70% skid?: Nope, I only go 69%. Kiddie jokes aside, I have learned a lot from this website, but whenever given the chance, I give back in my posts.

What I have contributed to Hackforums: I like to think that most of my posts are HQ and have the ability to help someone, I have also written a quick paypal guide, which was posted, got a bunch of views and then promptly died. :/ (<https://hackforums.net/showthread.php?tid=1694174>)

Why I want to win: I have been a member of this forum for such a long time, I have seen valuable members come and go and made many friends. I find it very hard to make my money last me never mind buying upgrades on forums. I managed to pay for L33T last month but I can't pay for UB3R.

Why I should win: Because I am a valued member of the forums, I have made some great contributions to the forum and I have made many friends.

Proof of being accepted by Omni(Pic with link blurred): I'll edit this post soon.

Is Powerful kool?: I don't know him to well.

Are you 80% skid or 70% skid?: Out of the choices here, I would say 70% but I consider myself 0% as I do not hack, I can't hack and I don't try to hack. I mainly come to hackforums for the community

and the friends.
