Thread: [Free/Cheap clothes of popular brands](#)

headsh0t - November 19, 2011, 11:08 am

Hey everybody!

I want to buy some clothes, but I don't want to spend 100\$ for one simple random-brand sweater. Does anybody know a webshop, wich offers cheap clothes? A few requirements: ABLE to ship to Netherlands, shop must be trusted, doesn't matter if it's fake, BUT... quality must be fine, and prefer (almost) nobody can see it's fake shit.

If somebody k'now a SE method or diffrent to get it for free, is also OK.?

Thnx in advance.

Yea, plndr is good, they sell lots of supra clothing/shoes as well as WeSC (I love that brand, though I think I might be the only one who has heard of it). Everything is 100% real and at a high discount. They do make you sign up to view products though, but on the plus side they accept paypal.
