token33 - January 24, 2012, 6:07 pm

Hi Kyra ?

First compliment your work, your Crypters are really excellent, your designs as well.

Not if I can ask for your help, but look for a source code of a simple RC4 crypter in vb.net, it would be for study. I hope not too much to ask for your help.

If the answer is no excuse for the question. Thanks for answering;)
