If you don't have a US phone number, try to have a free US number with Google Voice(you'll receive sms in your mail box)

Even if you don't live in US, UK or Canada, do sign up and have referrals. It will become totally internationally in the future. The more referrals you have the more money you will make.

The website is currently in pre-launch and is by private invitation. So here's a link to sign up:

IN RESPONSE TO...

Quote:You'll make \$0.05 per text message. You'll receive 5 texts per day, i.e. \$ 0.25 per day. You'll receive \$0.05 everytime one of your referrals read one text message.

Say you have 50 referrals, then per day you have:

$0.25 + 50 \times 5 \times 0.05 = \$ 12.75$ per day

The point is to have referrals. Quote:First it's NOT a scam because it does not ask you any money to join.

If you think the website is a scam, you may be right. I got nothing to lose if it's really a scam. But what if it's not a scam. The internet is so full of scam websites that it is sometimes difficult to distinguish between the GENUINE stuff and the scam. The choice is yours. To take the risk or not.

If you're afraid it goes scam, READ THIS: <http://followthiskid.com/2011/10/cashtexts/> Quote:If you are afraid that you'll be flooded by too many text messages.

Then use a Google Voice number not your real mobile phone number

How much are we actually making per text or per 100 texts?

If it's like 1 cent per text, no thank you.

I have yet to see ANY proof from this website, I highly suggest not joining this website until someone official posts proof.

This seems like PTC, I don't see real money in it...
