This is pretty nearly done and will probably go on sale tomorrow, what do you guys think?

offset - November 23, 2011, 8:35 pm

Here is an example of the compiling:

adding: L6DPP.jar (160 bytes security) (deflated 7%) adding: index.html (160 bytes security) (deflated 79%) URL: <http://xx.com/L6DPP.zip>
