Thread: [\[Mega Thread\] Scantime + Runtime Crypters Sources](#)

Theref - November 30, 2009, 4:26 pm

Well, i'm not the creator of these crypter. I'm just gather them and learn from them. Well, All of them is not FUD (not even UD lol), but at least you can use it to learn how the crypter works or Re-FUD it. ?

For those who are still beginner in crypter, stub, and etc, check out kutmustakurt thread about it. It will help a lot

<https://hackforums.net/showthread.php?tid=207201>

Epeius Crypter [2.0] [Run-Time]

[img]http://i50.[censored].com/n2y9n4.png[/img]

The source code is written in Delphi. Credits goes to opensc.ws

[Download](#)

Blue Rat crypter

[img]http://i42.[censored].com/29cqs7.jpg[/img]

Written in VB6. Runtime, support EOF and many type of encryption. Credits goes to opensc.ws

[Download](#)

Open Source Code Crypter 1.0

[img]http://img504.imageshack.us/img504/9532/newbitmapimages.png[/img]

Written in Delphi, Credits goes to opensc.ws

Features:

10 file limit

Memory Execution support

EOF-Settings support

Custom Stub support

Drop to Harddrive support

Multi-language support

[Download](#)

carb0n crypter 1.7 (supports EOF version)

[img]http://img200.imageshack.us/img200/1526/newbitmapimageyq.png[/img]

Have a good looking GUI, support EOF, Built in icon changer, etc. Written in VB6. Credits goes to opensc.ws

[Download](#)

NT2 CRYPTER

[img]http://img200.imageshack.us/img200/5977/newbitmapimageyf.png[/img]

Credits goes to opensc.ws

Features:

GUI coded in VB6

Stub size uncompressed: 24Kb OS: NT/XP,XP64/Vista/Vista64
FUD (Runtime and Scantime) Don't use external programs Important!
Icon changer (Icons pack included) Anti virtual machines (Optional)
AES/RC4 encryption NEW! Ability to change entry point.
Anti-emulation code, uses ThunderVB!
* Good design

[Download](#)

uNKCrypt0r source [written in c++]
1) compile XOR.exe to make a encrypted strings.h file
2) copy strings.h to /Stub
3) compile crypter gui & stub

[Download](#)

HackHound Crypter [Coded by Legssmit] | Thanks to Jboomerz
[img]http://img692.imageshack.us/img692/4291/newbitmapimageds.png[/img]

The anti's Include:

Anti sandboxie/cws sandboxie, joebox, ThreatExpert, Abubis, Vmware, Virtualpc, Virtualbox.
Has Eof Support (ReAlign Pe Headers, Preserve Eof Data, Melt stub(with drop in temp folder
example 673353.tmp)

Enable fake message support

kill process when ran option

Inject into Default browser, explorer.exe, and svchost.exe

And Icon changer.

http://www.#/?d=I68US2IB

Password : HackHound

Newly Added

Royal Crypter
[img]http://i48.[censored].com/2eygw7m.jpg[/img]

Thanks to kutmustakurt. Coded in VB6

[Download](#)

Fire Crypter
[img]http://i50.[censored].com/ezegph.jpg[/img]

Thanks to kutmustakurt. Coded in VB6

[Download](#)

cheers ?

If you have some, PM me, i will add them to this mega thread ?

Verbal Seduction - November 30, 2009, 5:40 pm

Verry nice good job
too long

R3aPeR - November 30, 2009, 5:41 pm

Thanks much, would + rep if I had l33t

Widow's Peak - November 30, 2009, 5:42 pm

Good Collection, Thanks.

TuViciouz - November 30, 2009, 6:17 pm

Thanks for posting this.

\$weet - November 30, 2009, 6:31 pm

excellent combo of crypters man, i too learned to make mine fud from this ...

\$weet - November 30, 2009, 8:05 pm

You know what, im bumping this b/c this thread is too useful to go unseen, if you see this pls comment so others will see it too, thanks all. Great job to the up loader btw, :D

Theref - November 30, 2009, 9:33 pm

LoL, thanx mate ?

CustomSync - November 30, 2009, 10:02 pm

Awesome man, this is perfect for people getting in to coding crypters
Great post
would + rep if I could

Theref - December 1, 2009, 1:25 am

Thanks mate,

btw is there anyone that have tried this beside me? ? post your feedback here pls

Don Pedro - December 1, 2009, 1:40 am

Very nice share! ?

Shit they contain the sources too, lol didnt notice on the title xD

If you flame:

Spoiler [\(Click to View\)](#)

Your mom got a mustasch ;)

Fish - December 1, 2009, 2:18 am

Thanks for this

I have been looking at NT source there is a auth system but its easy to bypass just simply look for

Code If CheckUser("carb0n") = True Thenand change it to
Code If CheckUser("carb0n") = False Then
and then find

Code If Update("Update") = True Thenand change it to
Code If Update("Update") = False Then

But from what I can see it is messing up most new files I have tested on Metus and Apocalypse Rat both don't Work with it so if you do find any programs that work with it be sure to let me know

Gizmo - December 1, 2009, 2:41 am

I like high quality post.

Thanks for sharing this with us mate, I like it. If I had HF I33t I would +rep you. ;)

Neroxan - December 1, 2009, 2:55 am

Ill have to take a closer look @ that one in vb6 thats runtime... Id like to learn how to build my own with vb but dont want to waste my time with only scantime.

Theref - December 1, 2009, 3:19 am

(Dec 1, 2009 03:18 AM)Fish Wrote: [\[CITE\]](#) Thanks for this

lol don't bother with something like bypass auth ?

Before

```
Code Private Sub Form_Load()  
If CheckUser("carb0n") = True Then  
MsgBox "Authentication >>> Access Granted.", vbInformation, "Authentication"  
Else  
MsgBox "Authentication >>> Access Denied.", vbExclamation, "Authentication"  
End  
End If  
'-----  
'Do not modify  
If Update("Update") = True Then  
Else  
MsgBox "Your files are out of date! Please update, there is a new version available."  
End  
End If  
'-----  
End Sub  
after  
Code Private Sub Form_Load()  
  
End Sub  
just delete them ?
```

flAmingw0rm - December 1, 2009, 4:38 am

Thanks for sharing the sources, but there is none for VB.NET. =(

why isn't fly crypter on there. It even has Unique Stub Generator!

GyberGate - January 22, 2010, 10:22 pm

Thanks im gonna work alot with this.

Theref - January 22, 2010, 11:45 pm

(Jan 22, 2010 11:18 PM)Crazyx1891 Wrote: [\[CITE\]](#) why isn't fly crypter on there. It even has Unique Stub Generator!

You have Fly Crypter source code eh?

Neroxan - January 29, 2010, 6:08 am

(Jan 23, 2010 12:45 AM)Theref Wrote: [\[CITE\]](#) You have Fly Crypter source code eh?

Yes, I gave it to you a while back remember? You couldnt find the encryption key for the rc4 when we were on msn messing with it trying to add a ispreade module. lol

Take a flip back to page 9....

(Dec 21, 2009 08:06 AM)Imwyldechylde Wrote: [\[CITE\]](#) This one may confuse more than help but Ill add it in for a legitamate bump anyways.

Fly Crypter v2d + Uniq Stub Generator 0.3

<http://www.multiupload.com/GC0R9L1LRY>

Its like magic baby. lol?

edit:btw are the "firecrypter" or "royalcrypt" that kut added runtime or just scantime?

Theref - January 29, 2010, 6:35 am

(Jan 29, 2010 07:08 AM)Imwyldechylde Wrote: [\[CITE\]](#) Yes, I gave it to you a while back remember? You couldnt find the encryption key for the rc4 when we were on msn messing with it trying to add a ispreade module. lol

<http://www.multiupload.com/GC0R9L1LRY>Its like magic baby. lol?

edit:btw are the "firecrypter" or "royalcrypt" that kut added runtime or just scantime?

Yes, but it just Fly Crypter's Stub Source, not the crypter itself lol.

The firecrypter and royal crypter is Runtime too

Neroxan - February 3, 2010, 11:11 pm

(Jan 29, 2010 07:35 AM)Theref Wrote: [\[CITE\]](#) Yes, but it just Fly Crypter's Stub Source, not the crypter itself lol.

The firecrypter and royal crypter is Runtime too

You havent looked in the rar have you.?

USG 0.3 and old flycrypter client source are there together mate. To give one and not the other would be a near sin. lol

Oh and here is another find for you as well Its HHv4 crypter... VERY fuckin awesome, but I havent

been able to fud the source yet, it crashes my undetector's(like all 5 of them) so it will take some time to do manually. Could be usefull for the shit ton of options it has otherwise.

<http://www.multiupload.com/DVQBAJK0TF>

Also UnDo crypter which was written by who!.

The coder is notorious for backdooring his applications, but Ive looked through the source and see nothing out of the ordinary thus far.

<http://www.multiupload.com/EVQTE1VB54>

Ive got some more that I need to go through as well, dunno whats what of those yet.

-mothered- - February 4, 2010, 1:32 am

Nice collection mate. Definitely some Interesting crypters that I can work with.

Many thanks for sharing :)

crack_that - February 4, 2010, 2:23 am

hey dude very nice thank u

juraganASIA - February 4, 2010, 3:29 am

makasih ya boss.thanks

The 7th Sage - February 9, 2010, 7:37 am

hey whats the pass for the hackhound crypter? "spam" is censored i guess.

EDIT:

nevermind got it.

:::[666]::: - February 20, 2010, 3:24 am

which ones are both runtime+scantime?

RUS7Y - February 20, 2010, 3:25 am

(Feb 20, 2010 04:24 AM):::[666]:::. Wrote: [\[CITE\]](#) which ones are both runtime+scantime?

All are both Runtime + Scantime .

H3x0S - February 20, 2010, 3:30 am

I will try to re-fud some of them. Thank you!

RvsK - February 20, 2010, 3:57 am

Great collection, works great!

Rated 5 stars.

Thanks.

HackForums censored words "HACK HOUND" (without space) into "SPAM"

OxygenX - August 26, 2010, 3:28 am

First of all thx for this great thread, for all those sources, etc.

The PW for the spam Crypter isn't "SPAM" its "HackHound". (At least this pw worked for me)

But when I try to build the source I get strange errors like these

<http://img37.imageshack.us/img37/7089/45568327.png>

Could anyone help me with this?

P.S

I am using Visual Studio 8 with Windows 7 x64

Theref - August 26, 2010, 5:00 am

It's coded in VB6 if im correct.

iforce - November 29, 2010, 11:14 am

cheers ?

If you have some, PM me, i will add them to this mega thread ?

[/quote]

nice post thanks for sharing p.s so can i use one of your crypter and cobain it with my fud stub??

TheSecondofAll - November 29, 2010, 12:33 pm

Amazing thread including loads of crypters. Thanks alot for the share! ?

F?y - November 29, 2010, 2:26 pm

carbon crypter is detected tried didnt work

morgan150 - November 30, 2010, 1:53 pm

Thanks a lot mate! very nice share! :P

dlget - November 30, 2010, 2:05 pm

What is the password of hackhound crypter?

<http://www.#/?d=I68US2IB>

Password : spam

Password doesn't work;

Nikotinn - February 3, 2011, 8:50 am

The password for spam Crypter is "H.a.c.k.H.o.u.n.d." without the dots.

T3eS 2 - February 4, 2011, 2:11 am

awesome man..

nice collection

WhoAml? - May 12, 2011, 6:21 am

Nice Thread man! I appreciate...?

Hopsin - May 12, 2011, 9:03 am

Some screenshots are dead but oh well links are up. Thanks indeed mate!

Sebdu94 - May 12, 2011, 10:08 am

Verry nice good job

too long

thecandyman123 - June 13, 2011, 3:01 am

nice one helped AA lot thank u soooo much

dagaul101 - June 13, 2011, 5:42 am

The aim for the best type of software is to get the two as close together as possible

G-Star Raw - June 13, 2011, 5:52 am

I think these will be very detected by now :L.

Narcotica - June 13, 2011, 6:26 am

man great share but

1-st use spoilers [spoiler] [/ spoiler] remove space between / and spoiler

2- mabye its wrong section ? i think it should be coding section vb

3- i dont know :P

BestRacs - July 8, 2011, 7:47 am

Very old post but still very helpfull.

Thanks

brotkillian - August 3, 2011, 11:50 am

pass isnt "spam" for that spam crypter.. could u pm me the working one? otherwise awesome collection :)

Tuntuni - August 24, 2011, 5:04 am

Just as brotkillian said: password isn't "spam"! :(That crypter has a lot of ANTI features and I was really happy when I saw there's a downloadable source (I'm not a C+Per, I just want to learn from it!). But my happiness ended very quickly as I found out the password wasn't "spam". :(I know it's an old thread but can you pm the working password, please? I'd be very grateful! Thank you!

Regardless,
Tuntuni.

Tuntuni - October 30, 2011, 6:21 am

Still waiting for that password. Pm me please!

BeggFoMercy - October 30, 2011, 7:48 am

Nice One Thanks xP bro Keep it up ...!!!

?Dante - October 31, 2011, 8:04 pm

just searching vb6 crypters and found your amazing thread...

good work...

well i was wondering..that CAN i build my OWN vb6 crypter...

btw...i have no knowledge of Visual Basic...but used and using some small .vbs scripts for fun..
thnx

dante..

AlienH4ck3rPower - December 21, 2011, 6:04 am

NICE THREAD! this is one of the best threads ive ever seen! i love crypters. im about to release a MEGA CRYPTER with lots of settings. if i do credits will have you there

Radical_ed - December 23, 2011, 7:13 pm

you said it would be possible to re-fud the crypters... how would that be possible?

bikezone - March 4, 2012, 10:59 am

nice thread hope can built one own. amazing great effort

Cyanide. - July 24, 2012, 8:32 am

Wow nice thread.. Bumping your thread back alive bro. :)

btw: which one of them do you consider the best (stability,features...ect) Im planning on getting on of them and re-fud'ing it.

bikezone - July 28, 2012, 2:25 am

nice collection of old stuff but still helping ppl..

Horrace456 - August 9, 2012, 7:12 am

Some of these might be so old and distributed that re-fudding simply isn't possible.

Zyrid - November 14, 2012, 5:38 am

You're awesome mate . Thanks for sharing them .

Th3Only - May 28, 2013, 1:46 pm

Very nice tutorial. This should get you going for sure.

Thanks for sharing

samn91 - June 21, 2013, 10:57 pm

thanx.... i needed this it was really helpfull

bagsik_123 - September 10, 2013, 12:42 am

Thanks a lot buddy very good thread..

marmalade57 - November 2, 2013, 1:36 pm

Informative...thanks...interesting tuts

PageMaster - July 14, 2014, 10:49 pm

NecroBumped With purpose.... Does anyone know if there is an updated list like this?

I am trying to study C++ crypter sources so I can plan out how im going to go about my crypter. but this list is all really old and most the links are broken

DopplerAF - July 15, 2014, 1:00 am

Nice Job Thanks...looking for this for long time :D ?

PageMaster - July 15, 2014, 8:21 am

baha anytime, I'm probably going to search and make a new list.

freddy00 - July 25, 2014, 1:23 pm

hope they are clean, will try and use them

rishuv - July 25, 2014, 6:29 pm

nice share cant wait to try them!

Tooshort

warlockrockz - January 11, 2015, 7:34 am

You need advanced knowledge to programming a crypter.
