You know it's surplus and no longer works, right?

I have a gas mask and chemical suit collection... for real safety get the NEW Israeli M13 or M15

I'd consider buying this just to turn it into a gasmask bong LOL

The mask is brand new and comes with a sealed filter. Straps are fully adjustable to fit an adult head.

it should work

The mask is brand new surplus.

Made about 30+ years ago and the filter I guarantee is the OD green filter made in tthe 70's.

Masks expire 20 years after production and filters expire 10 years after with 5 extra years after they

expire.
