Thread: [\[FREE\] \[UB3R/L337\] Setting up IRC Servers](#)

Pinch - November 29, 2011, 7:50 pm

Hello HF

I will set up an IRC Server for your botnet related needs.
(Just FYI VPS with root access is required)
I'll do it over TeamViewer for your own security.

If needed, I'll make a bot for you aswell (Or look up my tutorial [here](#) for an IRC Bot).

Thanks.

Eleqtriq - November 30, 2011, 5:50 am

Vouch for my boy Larsi, he knows what he is doing :)

What bot can u compile us?

I'll compile Mange if you need one, you have to FUD it urself.
It's good enough considering it is free, and I'd recommend spacerich as a VPS provider.

And yes, free for ub3rs.

The God-King - December 5, 2011, 5:57 pm

I'm interested in this service, I sent you a PM

Neal Caffrey - December 5, 2011, 7:35 pm

I have no idea what a VPS is because I fail that much at hacking, but I'm interested :)
