KiD CuDi - Codeine. / Twista old account that has been banned

<https://hackforums.net/member.php?action=profile&uid=839994>

Well i noticed i had a reply on my ancient booter thread that i do think has now been removed by at the time a user named Codeine. but has recently changed to Twista saying i hope these shells don't die out "Chris". now i honestly have never been refer'd to by my first name on HF and it sure was creepy that it was by someone i thought i never knew so i looked at his old usernames and i noticed it was Scott once one of prodigys friends before he carry'd on to rat him and scam on HF and to this day he still uses prodigys MSN for refer links and i noticed i got a msg from prodigy saying the following.

Spoiler [\(Click to View\)](#)

And wouldn't you know it Codeine. / Twista used the name Isolate as a HF username in the past just as scott did on xbox live and AIM.

Now that were on the topic of HF usernames lets take a look at his other past usernames.

Spoiler [\(Click to View\)](#)

Lets start from the top "Scott Mescudi yeah it just so happens the owner of KiD CuDi was named scott and its a past username.

Geocide Inc lets refer back a few years back when prodigy made his last booter what was it called anyone remember? it was Project Genocide.

Isolate Well its quite odd that Prodigys msn that was hacked by a scott is sending me a refer link using the name Isolate.

Now lets continue on the hacking of prodigy now we all know the true prodigys name was joe why is he now responding to scott around the time the hack took place?

Spoiler [\(Click to View\)](#)

Also to add even more proof this member has hacked prodigy it just so happens he admits he is KiD CuDi on prodigys msn.

Spoiler [\(Click to View\)](#)

Now lets move on how he even said he was KiD CuDi on his OWN AIM.

You will more then likely have to zoom in on this picture to read it.

Spoiler [\(Click to View\)](#)

I have made this post for the reason that i have PM'd this to staff many times in the past 2 days or more nothing has happen'd i got one reply from a admin but from a old report when i had hardly any proof and now that i have a truck ton still nothing has been done.

I knew who he was while he was KiD CuDi and he was banned i just recently noticed he is also Codeine/Twista

Gucci Guwop - December 1, 2011, 5:49 pm

Haha, I like Kid Cudi.

You said I used the name Scott Mescudi so you know its some kid that hacked Prodigy? Scott Mescudi is Kid Cudi's real name. If you are really stressing this bad to get me bad for no reason, just because I said I hope your shells don't get overused, then get over your self. :D Have a good day.

Also, Isolate is a cool name. I bought that gamertag a while back so I thought id use the name on HF then I didnt like it.

Did you not notice your convo with TrueZ i screenshoted on teamviewer were you say you were KiD CuDi

Gucci Guwop - December 1, 2011, 5:52 pm

I said I was Kid Cudi, not "KiD CuDi". A young man always has their dreams of being a very successful rap artist.

Fail story much?

You said don't listen to "Chris" / Ancient and that your KiD CuDi and trying to become legit again that has nothing to do with being a successful rap artist.

Gucci Guwop - December 1, 2011, 5:58 pm

Chris is your name right? I have seen someone post your name before, that is how I knew it. And I am trying to become legit again because when I first joined, about a month ago, no one trusted me on my projects.

-*CyberWarrior*- - December 1, 2011, 5:58 pm

I would kindly like it if you stop sending me messages on MSN Messenger about random HF posts... Sorry that you got scammed but what's the point of sending this to me. What did you expect me to do. Be in your side? No... Have a nice day

Gucci Guwop - December 1, 2011, 6:00 pm

I was not scammed by this member i had only sent the warning to everyone on my msn list just looking out for everyone.

Gucci Guwop - December 1, 2011, 6:02 pm

I will let the administrators deal with this from here. Once they check IPs, they will realized half of your story is faked. Have a nice day, and continue to be butt hurt because your booter is a fail.

Also you said to warn users that I scam? As far as I know, I have NEVER scammed anyone. Everyone seems to be happy with my services or products I provide. I give you props for putting this much time into this though. Like I said, being falsely accused.

Also, If I remember correctly, xhtmlphp hacked Prodigy. I knew them both very welll. So before you accuse me of hacking another member, know what you are talking about. :D

Also, xhtmlphp's name was Alex, So using the name Scott was probably a whole cover up.

Agreed honestly it will come out by staff if not by him and all he will be known for is the guy who lied about being a banned scammer instead of the guy who saw he has done wrong and has moved on in life.

jQuery - December 1, 2011, 6:16 pm

Seriously, this is a little far fetched now.

I've known Twista for a while now. Met him back in early '10 on a Runescape Private Server. He introduced me to HF.

I also saw his relationship with people, and I do not ever believe he would 'hack' someone. He was always kind, and wanted to share what he had, and always did the best to help.

You didn't even offend him with the little comment about his booter. You're using that as a sad little excuse to come up with this poor motive for him to spend hours creating a thread to trash you.

Obviously not the case. But regardless, whether you continue to lie or not, everyone who reads this thread will know the truth. You said it yourself, you are KiD CuDi. Don't even bother trying to play it off by saying you're aspiring to be like a famous rapper, that's just beyond sad.

Twista talked me through everything, and I have some understanding on the situation with what is going on. I know a user was hacked, but another user got banned for hacking that member. (both members apparently knew Twista)

Now, you're trying to either say one of the 2

1. You're saying that Twista is htmlphp?
2. You're saying that Twista is another member which hacked 'Prodigy'

Can you explain to me what you are implying Twista did? I do not quite get what you are trying to tell.

This thread is mainly on about how he is a old member who was banned for scamming look at the last picture showing his AIM convo with TrueZ with me on tv but there is msn convo from prodigys msn from some time ago were he has said he is scott and said KiD CuDi was his current account at the time same as what twista said on aim to truez

I honestly don't give a fuck what Twista did or didn't do in regards to hacking another member or being someone named htmlphp. I don't know the back story and don't care to.

I see photo evidence and extremely poor excuses explaining them. Don't bother responding this post, I'm done with this thread. Anyone who sees what the OP and I have posted, as well as possesses the ability to reason, will come to the correct conclusion on their own.

Bad choice of words on my behalf. I actually had an account created, Twista reminded me of the forum in October, and I was about to make another account when he told me that it was breaking rules.

He reintroduced me to the forum, and got me friendly with the way it worked.

I really can not call it how it happened day by day. But, he did get me addicted to HF shortly after

he joined. I use to use other forums to help with coding, when he told me the community here was much friendlier, and more active. I instantly checked it out for myself and realized that I could be more help here, and it would entertain me more.

Anyway, I hope you understand my argument by now. This thread is not about me, and I do not wish to get involved any further unless I can provide proof. Unless you're going to question me with a response to which can help your 'investigation', don't reply to me.

You can't say for sure unless staff does an IP check. I'm on neither side, but whatever any of you say doesn't matter compared to what the IP check results are. The man's confident, and suggested an ip check himself. The evidence really means nothing if the ips are different.

One more post, just to point out how idiotic you kids are.

You say that Twista reminded you of the forum in October. Meaning he was aware if it's existence in October, and was already familiar with the forum rules in order to tell you that multi-accounting was against the rules. He then "reintroduced" you to the forum and got you familiar with the way it worked.

Let's take a look at some history.

This image shows that you first posted on October 27th, 2011. You joined on July 15th. You were active up until current dates, starting on October 27th. You had posts almost every single day from then until now.

However, Twista's first post dates back to November 8th, 2011. 12 days after your first post. But he was already familiar with the forum? He reminded you of the site, was familiar with the rules, informed you that multi-accounting was not allowed, but didn't start posting himself until 12 days later? How then did he "reintroduce" you to the forum? It's pretty simple. He didn't.

Spoiler [\(Click to View\)](#)

Now this image shows that Twista did not have his first post until November 8th. How would he be familiar with the all of the rules of the forum without being active, before you became active, when

he started posting 12 days after you became active?

Now, I'm officially done with this thread. I've posted plenty of "proof" that you're a couple of idiots with a bundle of poor excuses.
