Thread: [\[Share\] Simple proxy checker source in vb.net](#)

nathan72389 - December 3, 2011, 11:26 am

whats up guys, n7 here again.

I woke up this morning and read a thread on here where someone wanted a source to a proxy checker. i started to write this one but i will never do anything with it, sooo,,,

[img]http://k.minus.com/ibzc0a7o1OAFJn.PNG[/img]

well

i initially wrote the proxy class for another app that i was screwing around with a while back and just adoped it to work with this. its got a few properties and events that are raised on weather its a good or bad proxy.

anyway...

if anyone wants to screw around with it, here ya go;

[Download from Multi-upload.com](#)

That's a pretty smexy theme there nathan. Is that your windows theme? If so may I have the name of it please? I love dark themes.

FANB?Y - December 3, 2011, 6:01 pm

The Theme Looks So Professional ! Thanks Nathan7

L0L123 - December 4, 2011, 7:13 am

Thanks nathan72389,i will now download

Impurity - December 4, 2011, 7:28 am

Thanks for this! Great share as always :)

xHiLT - December 4, 2011, 8:56 am

This is a fantastic job, I'll learn a lot with this source, thank you n7.

Gr3eNoX - December 4, 2011, 9:13 am

thnx for this :)

u removed the theme bro :(

wht was the themes name????

zatt - December 4, 2021, 9:27 am

any user has the source ?
post the source.
