Coded in what year of vb.net?

StarZ - January 8, 2012, 11:13 pm

Moredecai, It don't matter, The Syntax didn't change much. Only the IDE did. Probably 2010 though.

DeMoNi - January 9, 2012, 12:33 am

I am interested in this bro, CAN you pay me with more information ?

I am selling the source code to the crypter in the thread above, you can read all about the features it has there. Price is \$60 paypal, since it is FUD, you can make alot of money off of it. PM me if

interested.

EDIT: Scan updated, somebody scanned on a site that gives away samples.

It isn't FUD if its 1/21 like the title says, also I dont really believe that the source is yours, mainly because if it was a unique crypter source you could easily sell it for 200\$+, But nonetheless GLWS

I forgot to edit the thread. I don't care if you don't think its not mine, because the customers who bought this know its unique.

Mr. Anderson - *April 1, 2012, 11:54 am*

I am still selling this, if interested.

Mr. Anderson - *April 20, 2012, 12:57 pm*

I am still selling this, if interested. 1 copy left, only sold to 2 people.
