Well all members no requirements but you have to atleast WOW me with one thing something that you did.

Notice if a normal member went before you and I ignored you I'm not just going to ignore that normal member because a ub3r/l33t went 12 places after him first 10 first 10 served Thanks!

I'd really like a thread design for an upcoming tutorial...

It's basically this tutorial: <https://hackforums.net/showthread.php?tid=1826831>

But I want to make it a lot cleaner and add a lot more content.
