V For Vendetta - December 6, 2011, 4:08 pm

Hello. Firstly, I thank you for this awesome contest. This will make Hackforums have more HQ posts due to contests like these since everyone wants to win. Secondly, I would love to be UB3R because I want to help other members and give them rep according to the quality of their posts and their personality. Also, I meet all the requirements. I am also approved of UB3R by Omni. I hope you consider my application. Finally, even if I do not win, I would like to thank you once again for this amazing contest. Good luck to everyone else who participates. Have a nice day Cheryl Mason. Hope we meet again.

Osu|Mofo - December 6, 2011, 4:08 pm

I meet you all the requirements.

I'm a very good member and I'm active and contribute to the community of hf.

Why I want this upgrade I want this upgrade to change my name and signature and contribute even more!

Thanks for this, contest

grapeFRUIT - December 6, 2011, 9:59 pm

Hello.

I want to become L33t because I am really High Quality. First off I have contributed a lot to this community and plus I have a group which is dedicated to Helping. My posts are beyond high quality and I got a good or decent grammar. My skills are Graphics, SE, SEO, Spreading, Virus Removal and Gaming. I plan to post a lot of contests, tutorials soon but I need l33t first because nobody really cares about the Regular Members. I've stayed around this forum for almost 1 and a half month now as well. I've almost reached 300 posts. I got 20 reputation points which is good for a Regular Member. I have helped over 30 people here at HackForums, Upgraded and Regular members! L33ts are really more trusted than Regular Members because they are upgraded and stuff. So I can't sell anything until I either become ub3r or l33t.

Plus all of the Members (Mostly Upgraded) Think that Regular Members are scammers.

I really want to be upgraded for Christmas, to add reputations to everyone that deserves them, be more trusted, more PMs allowed and to access more sections which I will contribute in!

I also got all the Requirements.

I've already won l33t like 4 days ago. He said he bought me, but over 100 hours passed so I believe he didn't.

So thanks for hosting this contest I hope I win! And I wish you guys good luck!

He should be ub3r member since he got upgraded to leet already. He's a good guy who's constantly helping over the forums. He deserves to be in the blue zone.

Cheers!

cocaine1337 - December 7, 2011, 1:15 am

Hello I meet the Requirements and I would really like to get L33T...

I have contributed to the community and I am always willing to help. My grammar isn't good but I don't care. I have a decent REP for a regular member I think and I past a bit over 300 posts. Good day and I hope I win :).

Ryan' - December 7, 2011, 6:41 am

I guess I'll enter. I'd like to win an ub3r upgrade.

You say that it's against the rules for us to show PM's so how should I show you proof?

Angelic™ - December 7, 2011, 6:48 am

I deserve this upgrade because truly I improved as a member and will only continue to improve. I have also done my best to contribute to the site. I respect everyone decision that they make, I post with maturely, and without flame. I respect other members and their point of views on any topic. This is why I am the most deserving member for a upgrade. I'm here too learn more and getting l33t is like a push up to learn more and faster ,also I help out throughout various areas of the community offering my help both knowledge wise or by means of emotional support. I given all to this community. Whether I win or not, I will still try my best to be a high-quality member. I don't have a paypal or anything like that so I really cant contribute much but I do try my best.

If i get L33T status i will be encouraged to write tutorials that are really helpful for the community, posting methods, big giveaways of accounts ,ebooks and my knowledge !

Thank you for holding the contest , may the most deserving candidate win .

rajuonline - December 7, 2011, 8:26 am

Stifler™ - December 7, 2011, 9:55 am

I would firstly like to thank you for the opportunity for me to become Ub3r and someone has already upgraded me to L33t and I'm waiting for it to go through so don't mind me not being L33t yet. Secondly, I'd like to say as long as someone who will help make a difference on HF becomes upgraded, I'll be happy. I've been a member of HF for over a year. In that span I have gotten an idea of what is expected from the members, and what is seen as HQ and LQ. I have contributed quite a bit since first arriving to HF as the following giveaways show:

Hey I've competed in 3 competitions so far, 4th times the charm I guess.

So i feel i should L33T because, well ive been a member for longer than a year nearly; i feel ive contributed enough with 450+ posts and longer than a week of straight time on this forum.

Also in the future i wish to make programming tutorials as im exceptionally good with the few languages i know, but currently i feel no one will listen to me as im not L33T an will be seen as a noob or in-experienced member.

In my past i have helped many users and while learning my first programming language attempted to make a program to help users learn mySQLi.

P??sonl?af - December 7, 2011, 12:16 pm

Hiya,

As many Id like to have an l337 Upgrade.

It will be hard to confince you to pick me instead of many others but I tought I might aswell try.

I'm not really a special member. I just hang around the Monetizing Techniques and sometimes the Hacking Section.

I'm not a pro hacker and I Havn't made thousands online.

I just try and help where I can and share the information with others if it's worthy of being told.

Id like to thank you for doing this contest.

And wish the best of luck for anyone entering this contest.

Poison.

I'd like an upgrade to l33t. I think I'm a good choice because I try to help others out here on HF. Right now im running a huge Free GFX Service for all members. I am currently working on a GFX tutorial, and have many planned in the future. I've created a few threads with guides and will be posting more now that I'm a bit more techsavy. Please pick me
