so soon i realease my new keylogger builder Blazor Logger
Its gone have/have a nice ribbon style (Costum) (downloadable)
and it have picture taker error message on start and anti virus disable and special chat
reader/stealers, and many more things,
Picture coming soon

just whana say little fast that the picture taker / picture cam / whas a copy past code the code whas
2 long and i whas 2 lazy, anyway everything else made by me just not the webcam/cam option :/
dont comment about the name of the builder i like it and thats what mather
soon the awesomenest will be released

The logger is accurate, and it works very well, but i think it will be more perfectly when convert to
PDF, OR JPL, EXCEL, DOC.

Any RAT, or keylogger in those file will be okay for me. yessssss.

Some keylogger doesn't log outlook, while some does. i need keylogger that works very well.

I use predator pain logger but it doesn't log china Recovery china PC, ""but it work very well most in
India, Korea and some other country.

I need keylogger that will log or recovery china PC, and some Asia Saudi Arabian, American, AND
EUROPEAN COUNTRY.

Do any one have keylogger to recomend for me??????
