**bibek0111** - December 11, 2011, 1:02 pm

Hello HackForum, Presenting a Omegle spyer,

This is a great app I have so I thought I would share with you guys, spy on people using Omegle then you can take over their conversation this is real fun. ?.

Yes you heard that right! Now you can take over other peoples conversation in the spy mode.

[img]http://img35.imageshack.us/img35/8831/28102011233343.png[/img]

As with the images you can see you can talk with any of them you want. You can confuse both of them. Say one thing to another and say another thing to another, get me? :lol:.

To get this Post here and PM me....

The full credits go to Chipmonkz .

If there is one thing I hate most, is people who insist on the post and PM bullshit when it isn't even

your own content. For everyone wanting this, a 5 second search on google or even youtube will get you this bot much quicker than this.

That is all.
