Thread: [I need a Pirate Coin logo 200 x 200.](#)

Heretic Anthem - December 14, 2011, 9:41 pm

Okay so I want the coin it's self to be about this size, golden and with a transparent background (So it will blend in with anything).

So Basically make the big pirate coin smaller and more rounded?

A little different but not to far off of the pirate coin. 200x200 is preferred with a translucent background and yes, more rounded.

A little bigger and a little more not pix-elated. Very good try!

Sorry, I didn't know that, however it was almost perfect, to bad if I used that I would most likely get sued lol

No, it can not be exactly like that. However the size is perfect.
