Thread: [Problem with adding a signature image?](#)

Jawley - December 14, 2011, 11:01 pm

When I attempt to add an [IMG] Embed to my signature it comes up saying:

"Please correct the following errors before continuing:

We are sorry, but we cannot update your signature because it contains too many images. Please remove some images from your signature to continue. Note: The maximum amount of images for signatures is 0."

Any familiarity with anyone else? Thanks if anyone can provide support.

Sorry. But you have to upgrade to add pictures to your signature.
