Spoiler [\(Click to View\)](#)

I'm now selling Evernote Premium accounts for half the original price.

Evernote Premium gives you bigger upload capacity, offers greater sharing options, gives you access to note history, and more.

Plus, you get PDF searching, faster image recognition, and no ads.

Evernote is a great tool for everyone, Especially students, coders, bloggers and writers.

Limited supply only!

I can guarantee these accounts are not carded by giving a free vouch copy to an upgraded member with a minimum of 35 positive rep

(must be willing to vouch for me, of course)

I will choose the most deserving member to get a free copy. ?

First buyer gets \$5 discount, making it \$20 for 1 year premium subscription.

Purchase 1 year Premium account for just \$25.00

(Original price is \$45.00 per year)

Mode of payment: LR or PP

@studentdoc who sent me a private message regarding evernote sales, I can't reply to your PM as it says your inbox is full.

To answer your inquiry: Yup! Evernote Premium still available for \$25 only, I'm also selling 1 year Bitdefender Internet Security 2013 for only \$10 (original price is 49.95) in case you're interested, lemme know. Thanks!
