Thread: [CrackMe's Level 1-6\[To Be Continued\] Updated from 4 - 6](#)

Coding4Noobs - December 16, 2011, 4:37 pm

Alright so im tired of seeing a bunch of shitty crackme's so im making a shit load starting with the most basic and working up to very hard security system

#1 = Easy If
#2 = Loop
#3 = Try / Catch
#4 = Surprise Objects =D

these are all basic offline systems, now im going to make a few online and see how you do there as 5 will be the last easy one.

Please note i never obfusucate =D and you can do with what you wish with these different methods =P

by level 10, it will be a bruteforce me xD so beware xD

#Level 5 - Encryption Objects

<http://dl.dropbox.com/u/23639317/Coding4Noobs/Crackme%20Level%205%20-%20Encryption%20.exe>

i never made it online yet, but its now using decryption and encryption so good luck lol

#Level 6 - No Checks

<http://dl.dropbox.com/u/23639317/Coding4Noobs/Crackme%20Level%206%20-%20No%20Checks.exe>

Good Luck with this one its harder =D and its got no networking yet, but its it would be kinda the same code in sockets = D

Mr.Lazy - December 17, 2011, 9:33 am

i think you should use some protection in order to make crackme harder one

Meerkat.? - December 17, 2011, 10:25 am

Too fucking easy. Didn't download the others because I think they will be as fucking easy as these are.

And yes, I changed the title for the first 3 just because you forgot them. And I forgot the last one.
