I got two pairs of beats tours from dealicool (the \$11 ones) in 11 days from order placement to being at my door, and I live in the U.S.

I also placed a separate order one day later and got EMS shipping, and they still haven't arrived... It said they checked in at singapore december 15th though lol

? IM THE BOSS™ - December 24, 2011, 11:48 pm

Where do you live in the US? You got them pretty fast.

Incomplete - December 25, 2011, 7:14 pm

In Wyoming.

I know, I didn't expect them for a while.

Still haven't got my EMS package though.

er0senn1n - January 5, 2012, 2:01 pm

It takes forever to get my beats I ordered!!!! And I live in TEXAS!

smento01 - January 5, 2012, 2:05 pm

I think that it depends on the product that you order as well as your location mine usually come in about two or three weeks

er0senn1n - January 5, 2012, 2:32 pm

What did you buy and where do you live?

Hydrocodone - January 5, 2012, 3:45 pm
