Thread: [Live Attack:Virus attack on ICICI Bank Transactions](#)

Iviha595 - December 19, 2011, 1:50 am

Check this out, it is interesting:

Hi All,

I have developed a proof-of-concept virus to attack the ICICI Online banking using Man-in-Middle / Man-in-Browser attack method. I am releasing a video (of only 8 minutes) to show what such an attack can do to an online banking customer, who uses ICICI online banking and how it can result in a financial loss to the ICICI Online banking customer.
