Thread: [MyBB Plugin or HF Script Userscript?](#)

**Xerotic** - December 21, 2011, 8:58 am

Hey guys, I was considering making a video tutorial showing you how to make something from code... only problem is that I am not sure if I should make the tutorial of MyBB plugins or userscripts. Which would you prefer to see?

**StormHF** - December 21, 2011, 9:04 am

Probably userscripts, they seem to be a bit more interesting.

**Fourz** - December 21, 2011, 9:05 am

I'd rather see Userscripts ! :)

**Xerotic** - December 21, 2011, 9:11 am

Seeing that members prefer a userscript tutorial... I have an idea for one :)

I want a mybb plugin tut. What are userscript? Like login/register? If so phpacademy has like the best tutorials on youtube for those.

**Azido** - December 21, 2011, 9:29 am

I would like to see some MyBB Plugin tutorials ?

**Xerotic** - December 21, 2011, 9:45 am

Hell, I might just make both. Then everyone is happy :)

**FantaŠec** - December 21, 2011, 9:46 am

Both would be amazing bro, so i can make what ive been asking u :)

Not the conversational PM's. Not worth it yet.

When are you doing the tutorials? On youtube?

**Tobe** - December 21, 2011, 9:53 am

I would like to see a video tutorial with MyBB plugins.

Ehh.. never made a video tutorial before, so it is not the best. I might start doing it regularly though. I will get better with each video. I try to explain each bit you need to know for a BASIC script, but hell.. there are always questions ?

Hopefully I gain some subscribers and stuff that want to learn. I hope to educate some people with my knowledge. MyBB is next.

Id love to see a userscripts one. Would be awesome.

**Akshay2598** - December 21, 2011, 1:09 pm

Nice tutorial! Plus the sound was great! Could you make a MyBB plugin one? A little more complex than the hello world one that is given in mybb. Thanks!
