That is a punishment for pedophiles, I do not deserve it,

I wonder about the reaction on the cosplay and the yaoi date sim xD

Lolicon is not pedophilia, not gonna start another discussion with ya again.

+ the lolis I watch are mostly non nude and just cute.

Marshmellow - December 22, 2011, 11:14 am

Lolicon and pedophilia are two completely different things.

Lolicon basically applies to small, cute, and/or childlike girls/women. This may apply to breasts, face, and height. Often all of them.

Oh, and I'd rather die than ask my parents for this stuff.
Half my internets to you kind sir.

Happeh - December 22, 2011, 11:25 am

I want the first two.

I mean - what?

If I were to choose which of these I wanted, those two would probably be amongst them...
Along with the sailor uniform of course.

The sailor uniform I would by for a lady friend though. So she can give me a special dance. :3

No offensive, but I don't know whether your parents are legends, or just bat crazy...

I'd never get my girlfriend to wear that. Ever.

I fear the sailor uniform would just be for collector-purposes from my point ;P

"My Kouhai can't be this cute" for Christmas.

Marshmellow - December 22, 2011, 11:57 am

These make nice mock-presents, yes.
Sailor costume for all your female friends, everything else for your male friends.

Gift-guru from there on into eternity.
