Thread: [\[VB.NET\]\[Source\] Adf.ly Link Maker \[API\]](#)

xNeaples - December 23, 2011, 12:56 pm

Hi, this is my first thread in this section. I'm new, so I want to be appreciated by the community. I'll release a source of an Adf.ly Link Maker, one of my oldest project in vb.net.

Are you tired to log in into adf.ly to shrink your link? No problem, using your API and your ID, you'll make this in a few of seconds! [to check your api & id, log-in in the site, click on "Tools", then "API Documentation"]

Glad to see your comments, any feedback is appreciated.
