Thread: [\[Free\] Setup RATs and Crypting Servers FUD \[Free\]](#)

laduerb22 - December 24, 2011, 7:40 pm

This time around I am offering services of setting up RATs in addition to crypting servers free. The RAT I will setup is CyberGate because it is really easy for anyone to use.

My old thread: <https://hackforums.net/showthread.php?tid=958972>

Thread where I got the CyberGate Link: <https://hackforums.net/showthread.php?tid=545871>

Where you can get CyberGate: <http://www.#!/?d=C0N1LEKS>

PM ME WITH A DIRECT LINK TO YOUR SERVER, DO NOT POST IT IN THE THREAD

I plan on keeping this service available for at least a month. All I ask from people is to be patient as last time I was flooded with requests very quick and I couldn't respond to everyone as fast as I would like.

Credits to Plutonium for his tutorial in guiding me to setup CyberGate myself.

Thanks for letting me know. Can you point me in the right direction to offer my services?
