Thread: [Similar monitor \(for 2/3 monitor setup.\)](#)

Mitch. - December 26, 2011, 6:29 pm

Hey guys.

When I built my PC, I built it with a Samsung SyncMaster BX2431. I love this monitor and would love to do a 3 or 2 monitor setup with them, but I can't find very many sites that sell them anymore. The sites that do sell them sell them for a lot more money than I got mine for.

So, I ask you HF, are there and other monitors (preferably off of NCIX.ca) that are the same size, have the same colors and shit (images look identical), and stand at the same height? (So basically I could put it in a 3 monitor setup and you wouldn't be able to tell the difference between the monitors).

Kind of a tough situation, but meh, I figured I'd ask in case anybody's been in a similar situation.

Thanks!
-Mitch.

this one seems almost identical to me...

<http://ncix.ca/products/?sku=61262&vpn=LS24A300BS%2FZA&manufacture=Samsung#Specifications>

what do you think?
