Hello, I have been recently invited to Arabic hacker IRC's where I've met many known Arabic
hackers you'll see in the deface page...Not so good news, it's the smell of a Cyber War Arabs Vs
Israel. I myself don't support cyber wars, but for the first time I see Moroccan & Saudi hackers get
along :)

The message & the song are the introduction of the website where we meet.
We are all pro Palestine, I'm only bringing the page here. Virus Vision is the official admin of those arrangements, more than 750 Israeli governmental websites have been hacked by Arabs over since 2009. This is a list of the teams & Individuals that have one thing in common (Destroy Israeli servers) (Of course after their permission of letting me deliver this message)

Nx
Tiger
?????
?????? ??????
Team Evil
MoShaks
Red Virus
HaX0R_1
Bleedy
SpY_Fuck

And more than 200 Individuals who didn't like to be mentioned..Israel, get ready or stop the killing, maybe they won't take down the rest of your servers.

True wars are shit, whether they were in real life or in a binary world. But this is a matter of life and death, they're hacking for the sake of Palestinian kids, I've never seen Arabic hackers involving in cyber wars. It rarely happens!
