Yea i failed, but its fixed now. lol

Glad you like it tho :)

wertyl11 - December 30, 2011, 5:40 am

This is really awesome :)

I bet now everyone's going to use this.

Good job man.

Support. - December 30, 2011, 5:50 am

This is really good, well done OP I <3 it when people make classes

stasmic - December 30, 2011, 6:38 am

Wow thats really cool thanks for this

globemasters - December 30, 2011, 7:52 am

This is what i was exactly looking for

Thanks for the great Share.

Furious` - December 30, 2011, 8:48 am

Good job, @V35 you may want to change it to V3_5. I don't know looks better.

Eternal Five - December 30, 2011, 11:25 am

Thank you for you're nice comments guys ^_^

Jeff. - December 30, 2011, 1:32 pm

This is some amazing stuff man :] keep it up.

P.S: Greetings from Groningen.

Thanks guys, and no problem. Glad you all are enjoying this :)

wyterzzz - January 1, 2012, 1:33 pm

Mhm, I wrote something like this in CSharp too but it is not so advanced. Good work :)

fillobotto - January 27, 2012, 2:45 am

sorry for the but i dunno how to use it in vb.net
which commandline have i to use?

d0to - January 28, 2012, 8:46 am

Wow, that looks really good. Mad props to you. However, what should I do if I need to compile multiple classes and forms into one executable.

The MammoTh - January 28, 2012, 8:51 am

Very good indeed, good job on this.

Dementia - January 28, 2012, 8:56 am

This looks promising, thank you for sharing this, I ll go with the VB.NET compiler :D

Eternal Five - January 29, 2012, 6:25 am

Just got my copy and wow, this is really well written!

d0to - January 30, 2012, 2:14 am

Got my copy too. Vouch for op, really well written and properly documented.

JeromeMarshall - January 30, 2012, 2:42 am

Hey, thanks for the response in the other thread to my question. Checked your signature and found this. Pretty excited to see this, custom classes are a huge turn on.

Mind tossing me a pm with the link for vb mate? Huge thanks if you do. Regards.

Gh0st-Zer0 - January 30, 2012, 2:59 am

That's a really good "How to" Tutorial!
Thanks for your time in creating this.

can you gave me VB.Net version thank you

gixslayer - April 1, 2012, 3:08 am

Could you send me a C# copy? Making my own compiler for learning purposes and got almost every feature you have working now but there are a few things I haven't been able to do so far. Would love to see your source and see how you did those things. Don't worry I'm not going to copy and leech. I'm not even going to release my compiler. It's purely for learning purposes.

Thanks in advance.

kermithethefrog - April 1, 2012, 7:20 am

Could you send me the vb.net version please? Started working on this a few weeks ago, would be great for learning purpose. Thanks.

archy1 - May 13, 2012, 5:25 am

Please send me VB.NET source version. Thanks in advance :)

Ethernal Five - May 13, 2012, 6:04 am

I have an new update. I improved the method of adding resources, now you can set its own name, instead of having the filename as resourcename.

Also some bug fixes, should compile faster and with less errors now.

N3oNight - May 13, 2012, 6:11 am

Can i have the new Update..

Thanks in advance..

Kenny252 - May 13, 2012, 6:17 am

Thank you!

Polymatical - May 24, 2012, 5:54 pm

I would like the VB.NET version. Thank you very much :)

poppin27 - May 25, 2012, 4:27 pm

If this is still going, is it possible I could get both C# and VB.Net, due to the fact that I know vb.net really well, but i'm also learning C# as I would like to be decent at it in one point in time. This will be really helpful to me thaanks!

Security. - May 25, 2012, 4:58 pm

Very nice, Since I'm new to coding this will help bunches. Thanks again.

Can you please PM me a link?

Thank you!

Killer1478 - May 26, 2012, 11:12 am

Can I try this? I may aswell switch up. My current compiler stopped posting out errors, so for the past week or so, I've been having to build CodeDom and guess the errors completely blind, which let me tell you, isn't fun. ><

Kenneth1007 - May 30, 2012, 9:11 pm

Awesome,
Please PM Me With The VB.NET Version.
