Marshmellow - January 1, 2012, 1:22 am

Apparently we have an apocalypse coming our way as well.

Still, 2012 is looking promising for the entertainment industry. Loads of movies, anime, and games promised (Fallout Online included, w00t.)

Reki - January 1, 2012, 1:27 am

Happy New Year AA! It's already 5:30 pm here, and them fireworks are still popping.

Tasemu - January 1, 2012, 1:27 am

Anyway. Happy New Year everyone

Time for another lonely year for me, This time I'll stop basing my whole life on lies, I simply lie
because I'm trying to get away from the past that I had

Every person comes once in their lifetime close to a total breakdown.

Your past is what makes you strong.

Embrace it.

Marshmellow - January 1, 2012, 2:30 pm

I have mental breakdowns every now and then. I stop functioning in society for like a day or two,
and then I'm out of it...

It just doesn't help when it comes together with beeing hospitalized for 2 days and already not having a good mental condition (Childhood traumas, depression etc.)
