These guides are not by me, I either got them free or paid for them. They've just been here sitting on my desktop so why not give them out

It's not a virus, please virus check w/e it's full of .pdfs. If you disagree well don't download then...

There's guides such as;
Money Making (like 20+ of them)
The art of human hacking
How to SE things (Dr Dre beats etc)
Getting massive Youtube traffic
SEOing
Making money with share cash
Autopilot guides

I don't do no shitcash or adfly :) Straight up direct shit :)

Took me FOREVER to upload due to my lame connection, the minimum I would love is if you can at least post on this thread, so others can see and I know you appreciate this.
