Thread: [\[Source\] DF Crypter - USG \(Actual USG\) \[Source\]](#)

Penis. - *January 1, 2012, 9:59 am*

Well, I'm going to release the source, just because I'm tired of holding on to it.

It's got an actual USG, so it does compile "Unique Stubs"*.

If you do not know how to code, do not approach me and ask me for the source, because you will not get it.

This should be FUD, but I haven't checked it in quite a while.

To get the source, you MUST know how to code. If you can code, then PM me, and ask me nicely.

Foot Notes:

* - Some of the functions NEED to remain the same, or I couldn't find another way to achieve what that function was doing, so it may remain static in the final build.
